Papers in Phonology David R. Dowty, 1996 **Working Papers in Linguistics** Ohio State University. Department of Linguistics, 1995 **Customary Nationalism in Crisis** Vito Laterza, Casey Golomski, 2025-11-03 This book examines the aftermath of eSwatini's fiftieth anniversary of independence and the COVID 19 pandemic when many citizens of this last absolute monarchy in Africa took to their communities in unprecedented protests for democratic reform For raising their voices they were met with brutal police violence Customary Nationalism in Crisis offers snapshots of life in the Kingdom leading up to and in the aftermath of this epic moment providing lessons to the world on the power of the government to shape our lives through the guise of custom and tradition and the power of ordinary people to resist this Through a range of research written primarily by scholar nationals of eSwatini the book shows how ordinary women men and young people redefine language and their identities ethnic racial and gender and question what it means to be a citizen from their classrooms to clinics and from their workplaces to the halls of Parliament Customary Nationalism in Crisis shows that despite the persistence of authoritarianism citizens also adapt over the long term to survive and thrive This volume will appeal to scholars and students in African studies political science anthropology sociology and gender studies as well as policymakers human rights advocates and development practitioners interested in southern Africa The chapters in this volume were originally published as a special issue of Journal of Contemporary African Studies Language Policy and Planning in Universities Anthony J. Liddicoat, 2018-10-18 In a world where higher education is increasingly internationalised questions of language use and multilingualism are central to the ways in which universities function in teaching research and administration Contemporary universities find themselves in complex linguistic environments that may include national level language policies local linguistic diversity an internationalised student body increasing international collaboration in research and increased demand for the use and learning of international languages especially English The book presents a critical analysis of how universities are responding these complexities in different contexts around the world The contributions show that language issues in universities are complex and often contested as universities try to negotiate the national and the international in their work In some contexts universities language policies and the ways in which they are implemented may have a negative impact on their ways of working In other contexts however universities have embraced multilingualism in ways that have opened up new academic possibilities for staff and students Collectively the chapters show that universities language policy and planning are a work in progress and that much further work is needed for universities to achieve their language goals This book was originally published as a special issue of Current Issues in Language Planning Talking Freedom Karsten Legère, Sandra Fitchat, Femi Akindele, 2002 **UNISWA Research Journal**, 1992

Continuity and Change in Grammar Anne Breitbarth, 2010 One of the principal challenges of historical linguistics is to explain the causes of language change Any such explanation however must also address the actuation problem why is it that

changes occurring in a given language at a certain time cannot be reliably predicted to recur in other languages under apparently similar conditions The sixteen contributions to the present volume each aim to elucidate various aspects of this problem including What processes can be identified as the drivers of change How central are syntax external phonological lexical or contact based factors in triggering syntactic change And how can all of these factors be reconciled with the actuation problem Exploring data from a wide range of languages from both a formal and a functional perspective this book promises to be of interest to advanced students and researchers in historical linguistics syntax and their intersection
