Sinophobia Anxiety Violence And The Making Of Mongolian Identity:

Sinophobia Franck Billé, 2014-10-31 Sinophobia is a timely and groundbreaking study of the anti Chinese sentiments currently widespread in Mongolia Graffiti calling for the removal of Chinese dot the urban landscape songs about killing the Chinese are played in public spaces and rumors concerning Chinese plans to take over the country and exterminate the Mongols are rife Such violent anti Chinese feelings are frequently explained as a consequence of China s meteoric economic development a cause of much anxiety for her immediate neighbors and particularly for Mongolia a large but sparsely populated country that is rich in mineral resources Other analysts point to deeply entrenched antagonisms and to centuries of hostility between the two groups implying unbridgeable cultural differences Franck Bill challenges these reductive explanations Drawing on extended fieldwork interviews and a wide range of sources in Mongolian Chinese and Russian he argues that anti Chinese sentiments are not a new phenomenon but go back to the late socialist period 1960 1990 when Mongolia s political and cultural life was deeply intertwined with Russia s Through an in depth analysis of media discourses Bill shows how stereotypes of the Chinese emerged through an internalization of Russian ideas of Asia and how they can easily extend to other Asian groups such as Koreans or Vietnamese He argues that the anti Chinese attitudes of Mongols reflect an essential desire to distance themselves from Asia overall and to reject their own Asianness The spectral presence of China imagined to be everywhere and potentially in everyone thus produces a pervasive climate of mistrust suspicion and paranoia Through its detailed ethnography and innovative approach Sinophobia makes a critical intervention in racial and ethnic studies by foregrounding Sinophobic narratives and by integrating psychoanalytical insights into its analysis In addition to making a useful contribution to the study of Mongolia it will be essential reading for anthropologists sociologists and historians interested in ethnicity nationalism and xenophobia

Cultural Security in Contemporary China and Mongolia Jarmila Ptácková, Ondrej Klimes, 2025-10-01 Cultural Security in Contemporary China and Mongolia applies the term cultural security not exclusively to state or institution implemented processes but also considers the indigenous bottom up and inside out mechanisms of establishing and maintaining communal cultural security of an ethnic group Markers of cultural identity differ according to an inside and outside perspective and can be re defined according to inner or outer circumstances Importance of these markers increases when a community feels endangered in their cultural existence or diminishes when perceived cultural identity is not questioned The dynamics shaping cultural security are illustrated in examples of ethnic communities in the People s Republic of China and in Mongolia

The Routledge International Handbook of Language Education Policy in Asia Andy Kirkpatrick, Anthony J. Liddicoat, 2019-04-17 This must have handbook offers a comprehensive survey of the field It reviews the language education policies of Asia encompassing 30 countries subdivided by regions namely East Southeast South and Central Asia and considers the extent to which these are being implemented and with what effect The most recent iteration of language education policies of each of the countries is

described and the impact and potential consequence of any change is critically considered Each country chapter provides a historical overview of the languages in use and language education policies examines the ideologies underpinning the language choices and includes an account of the debates and controversies surrounding language and language education policies before concluding with some predictions for the future Revivals, Nationalism, and Linguistic Discrimination Kara Fleming, Umberto Ansaldi, 2019-12-06 Is linguistic revival beneficiary to the plight of newly emerging peripheral or even threatened cultures Or is it a smokescreen that hides the vestiges of ethnocentric ideologies which ultimately create a hegemonic relationship This book takes a critical look at revival exercises of special historical and geopolitical significance and argues that a critical and cautious approach to revival movements is necessary The cases of Sinhala Kazakh Mongolian Catalan and even Hong Kong Cantonese show that it is not through linguistic revival but rather through political representation and economic development that the peoples in question achieve competitiveness and equality amongst their neighbors On the other hand linguistic revival in these and other contexts can and has been used to support nationalist or ethnocentric agendas to the detriment of other groups recreating the same dynamics that generated the argument for revival in the first place This book argues that respect for linguistic and other diversity multilingualism and multiculturalism is not compatible with linguistic revival that mirrors nation building and essentializing identity construction **Routledge**

Handbook of Sexuality Studies in East Asia Mark McLelland, Vera Mackie, 2014-09-15 This collection brings together cutting edge work by established and emerging scholars focusing on key societies in the East Asian region China Taiwan Hong Kong Japan North and South Korea Mongolia and Vietnam This scope enables the collection to reflect on the nature of the transformations in constructions of sexuality in highly developed developing and emerging societies and economies Both Japan and China have established traditions of sexuality studies reflecting longstanding indigenous understandings of sex as well as more recent developments which interface with Euro American medical and psychological understandings Authors reflect upon the complex colonial and economic interactions and cultural flows which have affected the East Asian region over the last two centuries They trace local flows of ideas instead of defaulting to Euro American paradigms for sexuality studies Through looking at regional and global exchanges of ideas about sexuality this volume adds considerably to our understanding of the East Asian region and contributes to wider discussions of social transformation modernisation and globalisation It will be essential reading in undergraduate and graduate programs in sexuality studies gender studies women's studies and masculinity studies as well as in anthropology sociology history cultural studies area studies and health sciences *Information Society and Media Development in Modern Mongolia* Undrah Baasanjav, 2025-10-01 This book provides an account of Mongolian information society from the perspective of critical media studies The converged media sphere in modern Mongolia mirrors and shapes political communication economic outlook institutional norms and Mongolian identity When placing Mongolia on the global information society map the arguments in the book juxtapose information

society tenets and structural constraints like the small market communist past and mining dependent economy Today people in Mongolia take advantage of the mobility speed and spatiality of the internet as the Mongolians of old once saddled their horses and galloped across the grassy steps of Eurasia *Special Warfare* ,2017 Mongolia Michael Dillon,2019-11-28 Mongolia remains a beautiful barren land of spectacularly clothed horse riders nomadic romance and windswept landscape But modern Mongolia is now caught between two giants China and Russia and known to be home to enormous mineral resources they are keen to exploit China is expanding economically into the region buying up mining interests and strengthening its control over Inner Mongolia Michael Dillon one of the foremost experts on the region seeks to tell the modern history of this fascinating country He investigates its history of repression the slaughter of the country's Buddhists its painful experiences under Soviet rule and dictatorship and its history of corruption But there is hope for its future and it now has a functioning parliamentary democracy which is broadly representative of Mongolia's ethnic mix How long that can last is another question Short sharp and authoritative Mongolia will become the standard text on the region as it becomes begins to shape world affairs Somatic States Franck Billé,2025-02-28 In *Somatic States* Franck Bill examines the conceptual link between the nation state and the body particularly the visceral and affective attachment to the state and the symbolic significance of its borders Bill argues that corporeal analogies to the nation state are not simply poetic or allegorical but reflect a genuine association of the individual body with the national outline an identification greatly facilitated by the emergence of the national map Bill charts the evolution of cartographic practices and the role that political maps have played in transforming notions of territorial sovereignty He shows how states routinely and effectively mobilize corporeal narratives such as framing territorial loss through metaphors of dismemberment and mutilation Despite the current complexity of geopolitics and neoliberalism Bill demonstrates that corporeality and bodily metaphors remain viscerally powerful because they offer a seemingly simple way to apprehend the abstract nature of the nation state *Voluminous States* Franck Billé,2020-07-24 From the Arctic to the South China Sea states are vying to secure sovereign rights over vast maritime stretches undersea continental plates shifting ice flows airspace and the subsoil Conceiving of sovereign space as volume rather than area the contributors to *Voluminous States* explore how such a conception reveals and underscores the three dimensional nature of modern territorial governance In case studies ranging from the United States Europe and the Himalayas to Hong Kong Korea and Bangladesh the contributors outline how states are using airspace surveillance maritime patrols and subterranean monitoring to gain and exercise sovereignty over three dimensional space Whether examining how militaries are digging tunnels to create new theaters of operations the impacts of climate change on borders or the relation between borders and nonhuman ecologies they demonstrate that a three dimensional approach to studying borders is imperative for gaining a fuller understanding of sovereignty Contributors Debbora Battaglia Franck Bill Wayne Chambliss Jason Cons Hilary Cunningham Scharper Klaus Dodds Elizabeth Cullen Dunn Gast n Gordillo Sarah Green Tina Harris

Caroline Humphrey Marcel LaFlamme Lisa Sang Mi Min Aihwa Ong Clancy Wilmott Jerry Zee **Language, Literacy, and Social Change in Mongolia** Phillip P. Marzluf, 2017-11-22 Language Literacy and Social Change in Mongolia is the first full length treatment of literacy in Mongolian Challenging readers assumptions about Central Asia and Mongolia this book focuses on Mongolians experiences with reading and writing throughout the past 100 years Literacy as a powerful historical and social variable shows readers how reading and writing have shaped the lives of Mongolians and at the same time how reading and writing have been transformed by historical political economic and other social forces Mongolian literacy serves as an especially rich area of inquiry because of the dramatic political economic and social changes that occurred in the twentieth and twenty first centuries For the seventy years during which Mongolia was a part of the communist Soviet world literacy played an important role in how Mongolians identified themselves conceived of the past and created a new social order Literacy was also a part of the story of authoritarianism and state violence It was used to express the authority of the communist Mongolian People s Revolutionary Party control the pastoral population and suppress non socialist beliefs and practices Mongolians reading and writing opportunities and resources were tightly controlled and the language policy of replacing the traditional Mongolian script with the Cyrillic alphabet immediately followed the violent repression of Buddhist leaders government officials and intellectuals Beginning with the 1990 Democratic Revolution Mongolians have been thrust into free market capitalism privatization globalization and neoliberalism In post socialist Mongolia literacy no longer serves as the center for Mongolian identity Government subsidies to pastoral literacy resources have been slashed and administrators now find themselves competing with other developing countries for educational funding Due to the pressures caused by globalization Mongolians have begun to talk about literacy and language in terms of crisis and anxiety As global flows of English compete with new symbols from the distant past Mongolians worry about the perceived lowering standards of Mongolian linguistic usage amid rapid economic changes These worries also reveal themselves in official language policies and manifest themselves in the multiple languages and scripts that appear in the capital of Ulaanbaatar and other urban areas The Mongols at China's Edge Uradyn E. Bulag, 2002-04-03 This important study explores the multifaceted Mongol experience in China past and present Combining insights from anthropology history and postcolonial criticism Uradyn Bulag avoids romanticizing Mongols either as pacified primitive Other or as gallant resistance fighters Rather he portrays them as a people whose communist background and standing in China s northern borderlands has informed their political efforts to harness or confront Chinese nationalistic and political hegemony Breaking new ground in the study of Chinese and Mongol history and ethnicity the author offers a fresh interpretation of China viewed from the perspective of its peripheries and of minority nationalities in relation to the study of Chinese representation and minority self representation The author interrogates received wisdom about Chinese and minority nationalism by unraveling the Chinese discourse and practice of national unity He shows how the discourse was constructed over time through political rituals and sexuality in relation to

Mongols and other non Chinese peoples that hark back to Chinese Xiongnu confrontations two millennia ago and Manchu conquest in the 17th and 18th centuries Titular rulers of an autonomous region in which they constitute a minority Mongols face enormous barriers in building and maintaining a socialist Mongolian nationality and a Mongolian language and culture Acknowledging these difficulties Bulag discusses a range of sensitive issues including the imbrication of nation class and ethnicity in the context of Mongol Chinese relations tensions inherent in writing a postrevolutionary history for a socialist nationality and the moral dilemma of building a socialist model with Mongol characteristics Charting the interface between a state centered multinational Chinese polity and a primordial nationalist multiculturalism that aims to manage minority nationalities as cultures he explores Mongol ethnopolitical strategies to preserve their heritage

Collaborative

Nationalism Uradyn E. Bulag, 2010-07-16 Cosmopolitanism and friendship have become key themes for understanding ethnicity and nationalism In this deeply original study of the Mongols leading scholar Uradyn E Bulag draws on these themes to develop a new concept he terms collaborative nationalism He uses this concept to explore the paradoxical dilemma of minorities in China as they fight not against being excluded but against being embraced too tightly in the bonds of friendship Going beyond traditional binary relationships he offers a unique triangular perspective that illuminates the complexity of regional interaction Thus Collaborative Nationalism traces the regional and global significance of the Mongols in the fierce competition among China Japan Mongolia and Russia to appropriate the Mongol heritage to buttress their own national identities The book considers a rich array of case studies that range from Chinggis Khan to reincarnate lamas from cadres to minority revolutionary history and from building the Mongolian working class to interethnic adoption So called friendship and collaboration permeate all of these arenas but Bulag digs below the surface to focus on the animosity and conflicts they both generate and mask Weighing the options the Mongols face he argues that the ethnopolitical is not so much about identity as it is about the capacity of an ethnic group to decide and organize its own vision of itself both within its community and in relation to other groups Nationalism he contends is collaborative at the same time that it is predicated on the pursuit of sovereignty

Socialist and Post-Socialist Mongolia

Simon Wickhamsmith, Phillip P. Marzluf, 2021-03-03 This book re examines the origins of modern Mongolian nationalism discussing nation building as sponsored by the socialist Mongolian People's Revolutionary Party and the Soviet Union and emphasizing in particular the role of the arts and the humanities It considers the politics and society of the early revolutionary period and assesses the ways in which ideas about nationhood were constructed in a response to Soviet socialism It goes on to analyze the consequences of socialist cultural and social transformations on pastoral Kazakh and other identities and outlines the implications of socialist nation building on post socialist Mongolian national identity Overall Socialist and Post Socialist Mongolia highlights how Mongolia's population of widely scattered seminomadic pastoralists posed challenges for socialist administrators attempting to create a homogenous mass nation of individual citizens who share a set of cultural beliefs historical memories collective symbols and civic ideas

additionally the book addresses the changes brought more recently by democratic governance Chapters 2 and 3 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Mobility and Displacement Orhon Myadar, 2020-09-29 This book explores and contests both outsiders' projections of Mongolia and the self-objectifying tropes Mongolians routinely deploy to represent their own country as a land of nomads. It speaks to the experiences of many societies and cultures that are routinely treated as exotic, romantic, primitive or otherwise different and 'Other' in Euro-American imaginaries and how these imaginaries are also internally produced by those societies themselves. The assumption that Mongolia is a nomadic nation is largely predicated upon Mongolia's environmental and climatic conditions which are understood to make Mongolia suitable for little else than pastoral nomadism. But to the contrary, the majority of Mongolians have been settled in and around cities and small population centers. Even Mongolians who are herders have long been unable to move freely in a smooth space as dictated by the needs of their herds and as they would as free-roaming nomads. Instead, they have been subjected to various constraints across time that have significantly limited their movement. The book weaves threads from disparate branches of Mongolian studies to expose various visible and invisible constraints on population mobility in Mongolia from the Qing period to the post-socialist era. With its in-depth analysis of the complexities of the relationship between land rights, mobility, displacement and the state, the book makes a valuable contribution to the fields of cultural geography, political geography, heritage and culture studies as well as Eurasian and Inner Asian Studies. Winner of the Julian Minghi Distinguished Book Award AAG 2022 The Purge of the Inner Mongolian People's Party in the Chinese Cultural Revolution, 1967-69 Kerry Brown, 2006 This volume offers a unique insight into the relationship between language and culture of political power in modern China at a time of crisis and violence: the Chinese Cultural Revolution from 1967 to 1969.
