Sign Of The Times English Edition:

Signs of the Times Ray Grasse, 2002-04-01 A unique and extremely interesting examination of both history and the unfolding present as seen through the prism of astrological significance John Anthony West author of *Serpent in the Sky* We may live in astonishing times but they are not incomprehensible when you know how to read the signs Everybody says we re entering the Age of Aquarius but when does it start and how will we know what it looks and feels like Ray Grasse deciphers the signs and correspondences of our nearing Aquarian future using the tools of astrology synchronicity and mythology He draws richly from contemporary religion art politics science even current movies to show how the cultural signs of Aquarius and our likely future are already apparent and changing our world The Aquarian Age will be marked by its intensely mental quality when information will be the driving force of society and the biggest challenges we face will be those of the mind Decentralization will be the order of business either the empowered individual will reign supreme or the collective interests of globalized society will predominate It could be both We are all participants in the global drama and all aspects of our inner and outer lives are bound up with the new Aquarian themes *Signs of the Times* is the authoritative travel guide for the trip into our future don t leave the present without it An attempt firmly anchored in the age old tradition of spiritual symbology to make sense of what often strikes us as utterly chaotic arbitrary and senseless Georg Feuerstein PhD author of *The Yoga Tradition*

Migration as a Sign of the Times Judith Gruber, Sigrid Rettenbacher, 2015-06-24 Migrations are contested sites of identity negotiations they are not simply a process of border crossings but more so of border shiftings Rather than allowing migrants to swiftly move across stable borders from one clearly defined identity to another migrations question and renegotiate these very identities Migrations undermine and re establish borders along which the identity of migrants and also that of the supposedly settled population are constituted and as a discourse migrations serve as a contested site of negotiating identities Migrations reveal the negotiable character of identities and representations of migration are themselves a hotspot in contemporary identity constructions What can theology contribute to the negotiations on migration The contributions of this volume work towards a reading of migration as a sign of the times Together they offer steps towards a theology of migration They show that migration calls for a new way of doing A theology that is exposed to migration as a sign of the times is drawn into the shifting unsettling and undermining of borders This has impact not only on the discourse of migration but also on the discourse of theology it calls theology to move away from its search for well established definitions literally borders of its God talk and to venture into new uncharted territory It loses its fixed clearly defined grounds and finds itself on the way toward a renegotiation of what it means to
