The Forbidden Body Douglas E. Cowan,2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with horror as a genre which is mainly a function of marketing and more with the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim

Gold Medal Flapjack, Silver Medal Life Alison Mowbray, 2013-12-11 Being an Olympian was not my first choice of career or even my second. Alison Mowbray wasn't a sporty kid and thought that being good at sport was a pre-requisite for going to the Olympics. She thought she might be a doctor, a teacher, a Blue Peter presenter or maybe the first ever female naval submariner. Then at 18 I discovered rowing. From that point on for the next 15 years I didn't have a choice anymore. You don't choose to go to the Olympics. You lay out everything you have and let the Olympics take it. No deals, no bargains, no questions asked, no hope of return. Maybe it will be enough and the Olympics will choose you and maybe it won't. If you thought about the number of things outside your control between yourself and your dream you'd never start. You just think about the things you can do, the things you can control and you start doing them and keep doing them until you get there or until control is wrested from you. That's what you do. That is this book. I never planned to be inspiring so really this is just the story of how I did the things I love the very best I could do them and how very far it took me. And if you too were not a sporty child and you've never raced an Olympic final maybe I can take you there. This is a Silver medal life of achievement, addiction, alcoholism, anorexia, and Alzheimer's. But a Gold medal story of passion and perseverance and not letting anything or anybody get between yourself and your dream. Gold Medal Flapjack Silver Medal Life is a fascinating sports autobiography that will appeal to fans of rowing, the Olympics, and sports psychology. Written 8 years after that medal winning moment it also deals with what happens next in an athlete's life. There are many themes that will particularly resonate with women and anyone who enjoys cooking will love Alison's flapjack recipe and the many food references throughout the book. This is a book for people who love sports autobiographies and for those
