Crafts Together Alan Bridgewater, Gill Bridgewater, 1993      *Patchwork of Poems* Moira Andrew, 2000 A collection of poems on popular themes familiar to young children Photocopiable and illustrated the poems provide opportunities for class discussion for poetry writing by the children and display of their work      **The Junior Bookshelf**, 1994      **H3LIX: Present in a Life Worth Living** Ricardo Fonzaghi, 2025-08-11 The world is a machine A vast intricate self-perpetuating mechanism its gears spinning ceaselessly calculating equations we do not yet comprehend Some call it fate Others science A few a grand experiment But whatever name we give it the machine moves forward powered by the choices we make whether we understand their consequences or not This book is not just a story it is an inquiry A deep dive into the helix of human existence where the strands of technology ambition and morality twist together in a pattern as ancient as DNA itself What happens when knowledge is too powerful When equations are no longer theoretical but real When the quest for balance for understanding tips the scales into chaos Helix is a journey through those questions A mystery yes A thriller certainly But at its core it is an exploration of the forces that drive us love power money the search for meaning and the price we pay when we chase them blindly As you turn these pages remember every revelation comes with a cost And sometimes the pursuit of truth is the most dangerous game of all Welcome to Helix      **Words in Collision** Michael L. Ross, 2023-04-15 For centuries English language writers have borrowed words and phrases from other languages in their fictional works Words in Collision explores this tradition of language mixing and its consequences Returning to Shakespeare's Henry V Michael Ross asks why writers employ foreign phrases in their English language texts why this practice continues and what it means He finds that the insertion of foreign elements rather than random or arbitrary occurs in literary works that display a self-conscious preoccupation with language in general as a dynamic determinant of social relations Discussing nineteenth-century works by Sir Walter Scott Charlotte Brontë and Henry James the book demonstrates how multilingualism connects with themes of cosmopolitanism estrangement and resistance to social convention In the second half of the book the multilingual practices of canonical Anglo-American literature are compared with postcolonial texts by Caribbean Nigerian and Indian authors including Chimamanda Ngozi Adichie and Arundhati Roy whose choice of language is fraught with complex moral and artistic implications Ross's readings reveal both crucial departures and surprising underlying continuities in linguistic traditions often thought to be deeply divided in time space and politics The first extended treatment of language mixing in English texts Words in Collision is critical to understanding past practices and future prospects for multilingualism in fiction      **Super Simple Masks** Karen Latchana Kenney, 2009-08-15 Nurture the artistic side of kids and expose them to the decorative arts with this easy-to-understand title Super Simple Masks uses simple language and how-to photos to introduce early crafters to a variety of projects including masks made out of plates foam felt and more Even seasoned crafters will be surprised by the ingenuity and functionality of these craft ideas Super Sandcastle is an imprint of ABDO Publishing Company      **Fiction,**
