Re: Recommendations in anticipation of revisions to the Qualified Intermediary Agreement

Dear Gentlemen and Madams:

The Securities Industry and Financial Markets Association ("SIFMA")¹ is pleased to submit comments on the Qualified Intermediary ("QI") Agreement² in advance of anticipated revisions. While we understand the Internal Revenue Service's ("IRS") intention to publish a final version without an advance opportunity for public comment, we hope our recommendations will be taken under consideration. SIFMA members may have additional comments once the final agreement is published as well.

¹ SIFMA is the leading trade association for broker-dealers, investment banks and asset managers operating in the U.S. and global capital markets. On behalf of our industry's nearly 1 million employees, we advocate for legislation, regulation and business policy, affecting retail and institutional investors, equity and fixed income markets and related products and services. We serve as an industry coordinating body to promote fair and orderly markets, informed regulatory compliance, and efficient market operations and resiliency. We also provide a forum for industry policy and professional development. SIFMA, with offices in New York and Washington, D.C., is the U.S. regional member of the Global Financial Markets Association (GFMA).

A Brief History of Doom Richard Vague,2019-05-24 Financial crises happen time and again in post industrial economies and they are extraordinarily damaging Building on insights gleaned from many years of work in the banking industry and drawing on a vast trove of data Richard Vague argues that such crises follow a pattern that makes them both predictable and avoidable A Brief History of Doom examines a series of major crises over the past 200 years in the United States Great Britain Germany France Japan and China including the Great Depression and the economic meltdown of 2008 Vague demonstrates that the over accumulation of private debt does a better job than any other variable of explaining and predicting financial crises In a series of clear and gripping chapters he shows that in each case the rapid growth of loans produced widespread overcapacity which then led to the spread of bad loans and bank failures This cycle according to Vague is the essence of financial crises and the script they invariably follow The story of financial crisis is fundamentally the story of private debt and runaway lending Convinced that we have it within our power to break the cycle Vague provides the tools to enable politicians bankers and private citizens to recognize and respond to the danger signs before it begins again
