FIREARMS INSTRUCTOR'S MANUAL R.E. Parham, 1999-01-01 This manual has been written with the Law Enforcement Firearms Instructor in mind It is an attempt to save the instructor time by furnishing already prepared outlines that cover most of the subject currently taught by and to law enforcement personnel The purpose of the manual is twofold First it can be used by current firearms instructors as a handy reference guide and also as a way of keeping all of the firearms outlines in one simple format By preparing the manual in this fashion all of an instructor's outlines are easily accessible should an instructor's class be challenged by the legal system Secondly this manual can be used as the text for firearms instructor initial certification classes Once the new instructor completes the basic certification course he or she will have a complete set of outlines that can be used for teaching their classes The first four outlines in this manual The Role of the Firearms Instructor Safety Responsibilities Record Keeping and Discipline are generally used during instructor development classes The rest of the outlines while also used in instructor development classes are also appropriate for basic recruit classes as well as classes that are designed for in service personnel The Appendix contains material that can be used as class handouts or made into overheads for class presentations Some of the courses can be used for general firearms qualification while others are used for training a specific skill such as linear and lateral movement or multiple attackers The manual has been written to take the pain out of the office work part of being a firearms instructor and to give the instructor more time to teach

Hand Guns, Concealed Carry, Gun Laws, Other Concerns, and Things You Should Know Hammond Satterfield, 2013 My purpose and hope in writing this book about Handguns Concealed Carry and Legal Concerns is to impart to you knowledge to save you money An even more important goal is to save you potential heartache and most critical to encourage you to protect your life and that of your loved ones Why and how you ask First The Need The FBI reported In 2010 there was a burglary every 15 seconds One in five women in a recent survey stated they had been a victim of sexual assault When resisting a criminal assault an armed woman has a 400% better chance of escaping unharmed than an unarmed woman Question What's your plan Just trust in Blind Luck The Why To purchase an inappropriate hand gun or two can cost hundreds of dollars To run afoul of the law that expense begins in the thousands of dollars To be unarmed and unprepared to confront a violent attacker that cost is incalculable Remember Lightning and violence have one thing in common they both strike somewhere The How There is no other single source one volume book covering handguns ammunition holsters maintenance safes safety legal concerns and miscreant misbehavior This book is an effort to fill that void If you are not certain that you need to know more open the book to page IX and take a quick assessment of your knowledge Thank you for giving me a look and don't forget You make your choice and you take your chances
