Transforming Universities in South Africa , 2020-08-31 The idea of transformation in higher education underpins all policy documents academic literature and on going debates in South Africa Transforming Universities in South Africa Pathways to Higher Education Reform responds to the pressing need to comprehensively review the post apartheid experience and assess where South Africa s higher education stands across the continent and globally particularly within the country s efforts to overcome decades of socio economic imbalances It addresses the question of whether South Africa s transformation strategy from apartheid to democracy was simply a symbolic new flag raising and new anthem singing exercise reflecting a transition akin to those limited decolonization projects elsewhere in the world or whether something

more fundamental was possible and was achieved with political and policy implications for other countries in Africa and globally This volume s ultimate purpose is to provide a basis for imagining new futures in which South Africa higher education in the context of Africa and the global world takes centre stage *Social Justice and Education in the 21st Century* Willie Pearson Jr., Vijay Reddy, 2021-04-10 The world is not an equal place There are high and low income countries and high and low income households For each group there are differential educational opportunities leading to differential educational outcomes and differential labor market opportunities This pattern often reproduces the privileges and inequalities of groups in a society This book explores this differentiation in education from a social justice lens Comparing the United States and South Africa this book analyzes each country s developmental thinking on education from human capital and human rights approaches in both primary and higher education The enclosed contributions draw from different disciplines including legal studies sociology psychology computer science and public policy Open Learning as a Means of Advancing Social Justice Tabisa Mayisela, Shanali Govender, 2024-01-23 This volume investigates the uptake of open learning in South African Technical Vocational Education and Training TVET colleges and higher education institutions Comprised of 16 studies focused on activities at a range of colleges and universities across the country these chapters aim to promote a better understanding of open learning practices across the Post School Education and Training PSET sector including issues such as recognition of prior learning access for students with disabilities work integrated learning professional development novel student funding mechanisms leadership for open educational practices institutional culture student support blended and online learning flexible learning online assessment open educational resource development models and funding and micro credentials This collection of peer reviewed chapters contributes to understanding the ways in which South African PSET institutions and educators are interpreting open learning as a means of advancing social justice It includes a historical and contemporary understanding of the economic cultural and political obstacles facing PSET drawing on Nancy Fraser s theory of social justice as participatory parity to better understand the ways in which open learning may address systemic social injustices in order to allow South African students and educators to thrive This volume emerges from research conducted by the Cases on Open Learning COOL project an initiative by the Department of Higher Education and Training in partnership with the Centre for Innovation in Learning and Teaching CILT at the University of Cape Town UCT in South Africa *Youth and Higher Education in Africa. The Cases of Cameroon, South Africa, Eritrea and Zimbabwe* Donald P. Chimanikire, 2009 Student activism in Africa at least since the early 1990s has been preoccupied with popular struggles for democracy in both their respective countries and institutions of higher learning The changing socio economic and political conditions in many African countries characterized by the decline in economic growth and the introduction of multi party politics among several other factors have had different impact on students and student political organizations in African universities This book recounts the responses of students to these changes in their attempt to negotiate better living and

studying conditions The four case studies contained in the book Cameroon South Africa Zimbabwe and Eritrea clearly reveal the very important aspects of the situation in which African students find themselves in many countries and underscores the need to understand the character and development of higher education on the continent Ministries of Higher Education Vice Chancellors Deans of Students Student Unions and parents will find this book very useful in terms of understanding the tensions that often arise at institutions of higher learning and why solutions seem to be elusive
