

Football

Football is a sport of roughness
Although it takes some skill,

It just takes practice to get you over the top of that hill
But as they say, practice makes perfect,

The practice might get rather hectic
As people start to get mad,

After the game if sure you will be glad
Even if you don't win the game,

It's not all about the fame
The game is just for fun,

If you just get it done,
Im sure it will be great.

Mixing Metaphor Raymond W. Gibbs, Jr., 2016-03-18 Mixing metaphors in speech writing and even gesture is traditionally viewed as a sign of inconsistency in thought and language Despite the prominence of mixed metaphors there have been surprisingly few attempts to comprehensively explain why people mix their metaphors so frequently and in the particular ways they do This volume brings together a distinguished group of linguists psychologists and computer scientists who tackle the issue of how and why mixed metaphors arise and what communicative purposes they may serve These scholars almost unanimously argue that mixing metaphors is a natural consequence of common metaphorical thought processes highlighting important complexities of the metaphorical mind Mixing Metaphor for the first time offers new critical empirical and theoretical insights on a topic that has long been ignored within interdisciplinary metaphor studies

The Material

Unconscious Bill Brown, 1996 Within the ephemera of the everyday old photographs circus posters iron toys lies a challenge to America's dominant cultural memory What this memory has left behind Bill Brown recovers in the material unconscious of Stephen Crane's work the textual residues of daily sensations that add up to a new history of the American 1890s As revealed in Crane's disavowing appropriation of an emerging mass culture from football games and freak shows to roller coasters and early cinema the decade reappears as an underexposed moment in the genealogy of modernism and modernity Brown's story begins on the Jersey Shore in Asbury Park where Crane became a writer in the shadow of his father a grimly serious Methodist minister who vilified the popular amusements his son adored The coastal resorts became the stage for debates about technology about the body's visibility about a black service class and the new mass access to leisure From this snapshot of a recreational scene that would continue to inspire Crane's sensational modernism Brown takes us to New York's Bowery There in the visual culture established by dime museums minstrel shows and the Kodak craze he exhibits Crane dramatically obscuring the typology of race Along the way Brown demonstrates how attitudes toward play transformed the image of war the idea of childhood and nationhood and the concept of culture itself And by developing a new conceptual apparatus with such notions as recreational time abstract leisure and the amusement knowledge system he provides the groundwork for a new politics of pleasure A crucial theorization of how cultural studies can and should proceed *The Material Unconscious* insists that in the very conjuncture of canonical literature and mass culture we can best understand how proliferating and competing economies of play disrupt the so-called logic and work of culture
