Paragraph	Content	
Introduction	Sentence 1	<u>Hook</u> - One sentence designed to grab your reader's attention (quote, question, thought-provoking statement, anecdote, interesting fact, etc.).
	Sentence 2-3	<u>Background Information</u> - Connect your general hook to your specific topic. What basic information should your reader know about your topic in order to understand your essay?
	Sentence 4-5	<u>Thesis</u> - One to two sentences identifying your topic, claim, and specific arguments you intend to make.
Body #1 through Body #3	Sentence 1	<u>Topic Sentence</u> : One sentence identifying what your paragraph is going to be about. This sentence should use transitions such as, first, second, third, last, also, additionally, etc.
	Sentence 2-6	<u>Details</u> : Use these sentences to prove your point using specific details from the text. The more specific you can make it, the better. Use quotes, page numbers or examples from text.
	Sentences 7-8	<u>Paragraph Summary/Transition</u> - Briefly wrap up your paragraph by putting your final thoughts on the topic at hand. Basically in your own words, what overall idea or statement do the details you supplied create? How might this topic lead into the next idea?
Conclusion	Sentence 1	<u>Wrap-Up Statement</u> : This is a one sentence overview of your topic. What is the overall point/argument/idea of your essay? You can use your original thesis to create this sentence.
	Sentence 2-3	<u>Recap Specific Ideas</u> : Use these sentences to summarize your main points from your body paragraphs. Never word your points the exact same way. Add variety by restating the ideas using new words. At no point should you introduce new ideas in your conclusion.
	Sentence 4-5	<u>Lasting Impression</u> - One to two sentences leaving your reader with a memorable idea, thought or call to action. It is clear from these sentences that your essay is done.

Words that Count: A Guide to Writing Analytical Essays about Fiction Kate Sheckler, 2019-01-01 Language is complex Written or spoken the complexity of language makes the medium the versatile tool we need but also creates the potential for a wide variety of misunderstandings and mistakes Whether we are attempting to understand a piece of fiction or writing a text to make our thoughts comprehensible to others the complexity of language is both necessary and fraught That said the inevitable pitfalls don't mean we need to sacrifice precision or accuracy This guide is a step by step process that offers hands on methods for accurate analysis and precise

essay construction Chapter one deals with a variety of methods by which to approach stories and novels such that your analysis is structured on carefully constructed logical progression founded on the primary text rather than on hunches and guesswork and chapter two offers infrastructures and scaffolding on which any essay can be structured The structures included in chapter two are not a template and thus do not limit style or content rather they are based on a series of tasks that must be completed for an argument to be convincing As such the tasks offer a kind of map through the process of essay writing that always indicates your next step Contrary to accepted mythologies about analyzing fiction and writing essays neither is a guessing game and this text can help you remove the guesswork from your own process
