contemporary school of Laozi espoused the wisdom and freedom of the Dao based on the concept of alignment with nature and reverence for the environment. There followed schools of analytical logic, Legalism, and the arrival of Buddhism, which became associated in China with the mystical writings of Laozi, adding the dimension of compassion. These schools gradually fused in a neo-Confucian synthesis that went unchallenged in China until the encounter with the West. The book touches on the relationship between philosophical thought and politics and brings the reader up to date by looking at the considered way in which China has adapted foreign ideas in modern times. Written by a distinguished author in clear everyday language, it is a fascinating and accessible introduction to an important subject.
