Taking A Stand By Rand Paul:

Taking a Stand Rand Paul, 2015-05-26 Senator Rand Paul leading national politician and 2016 Presidential candidate presents his vision for America From his electrifying thirteen hour filibuster against administration orchestrated drone strikes against U S citizens to leading the discourse on criminal justice Senator Rand Paul has taken Washington by storm His outreach to this country s minority communities alone championing reforms of mandatory minimum sentencing school choice and the creation of enterprise zones for economically depressed areas distinguishes him as a politician and Republican the likes of which are rarely seen What lies ahead is Senator Paul s plan for America where lower taxes and smaller government empower a muscular and expansive middle class an America that doesn t engage in nation building or fight wars where the best outcome is stalemate an America that believes in constitutionally protected liberty and the separation of powers **Congressional Record** United States. Congress, 2011 Modern American Political Dynasties

Kathleen Gronnerud, Scott J. Spitzer, 2018-10-18 This collection offers a front seat view of the rise reign and fall of powerful modern political families and examines the effects they have had on political social and economic issues in American society Modern American Political Dynasties A Study of Power Family and Political Influence is a unique research resource and fascinating read that explores the dynamics and modern America s most influential political families It provides a thorough study of approximately 20 of the best known surnames in 20th century American politics More than just a biography it highlights how these families dynamics have influenced political practice and thought providing a holistic context for the evolution of political dynasties in the United States The text includes a historically grounded examination of the crossroads of family and politics as it charts the origins development peak strength and decline of each family It is the only published volume to include biographical and contextual information on major political dynasties in addition to fascinating research on high profile personalities **The American Right After Reagan** Edward Ashbee, John Dumbrell, Alex Waddan, 2019 This

timely and significant book provides a comprehensive overview of right wing ideology and policy making in the years since Ronald Reagan left office The authors assess the ways in which the Reagan legacy rather than the empirical realities of his tenure has impacted economic social and cultural policy formation and conservative efforts at reshaping the United States Against this background they provide an explanation for why the Republican party turned towards Donald Trump The Silencing of the Lambs Michael L. Brown, 2022 Conservative Christians in the United States today are feeling the fire thrown at them by liberal influencers who are pressuring Americans to pick up a left wing agenda and abandon biblical values Now is not the time for the church to stay quiet on the issues that will determine America s future This is the moment for the church to reject the left s muzzle and turn the tide for this nation Dust jacket flap **Philosophy and Other Bad Habits**

Richard Van Ingram, 2011 *2016: the Campaign Chronicles* JD Foster, 2017-01-19 How did Donald Trump a man with zero direct political experience and no particular affiliation to either political party go in the span of a two year campaign from

preposterous aspirant to President elect of the United States It will likely take years if not decades before a confident consensus develops but formulating an answer begins with chronicling the key events in the campaign in the country and sometimes in the wider world as they happened This book is an attempt to provide such a chronicle by no means the last word but perhaps a useful and entertaining first word toward answering the question What the heck **The 2016**

Contenders: Rand Paul Joel Achenbach, The Washington Post, 2015-07-28 Presidential candidates are a breed apart often propelled by traits that have shaped their careers and have deep roots in personal histories Often their greatest strength can turn at supernova speed into their greatest weakness The exact qualities that set them apart from the field trip them up eventually over the long haul of a presidential campaign Rand Paul s ability to sell himself as the most libertarian of the presidential candidates defending civil liberties at home and opposing military adventurism and nation building abroad is what can set him apart But those unconventional ideas could also box him in Libertarians don t win national elections unless you count Thomas Jefferson in 1800 and 1804 In this series of eBooks The Washington Post is exploring in depth all these key characteristics of the leading presidential contenders the very characteristics that could help make one of them the country s next commander in chief or forever sink their presidential ambitions *The Contemporary Congress* Burdett A.

Loomis, Wendy J. Schiller, 2018-01-15 In an era of heightened partisanship and increased polarization The Contemporary Congress offers a clear and concise introduction to legislative processes Perfect as a brief core or supplementary text for undergraduate courses Loomis and Schiller construct a comprehensive portrait of the U S Congress from defining congressional structures and procedures to outlining the process of elections and analyzing presidential congressional relations The seventh edition focuses on two parallel trends an increasingly partisan and polarized Congress and a growing executive power In addition the authors make some early observations of relations between the Congress and the Trump Administration New coverage includes the art of electioneering the pressures of campaign fundraising and updated policy goals of the political parties that shape the congressional agenda From a late night deciding vote by Senator John McCain R AZ to the rise and fall of Freedom Caucus member Representative Tim Huelskamp R KS a new Spotlight feature provides brief case studies of decisions made by individual members to illustrate the constant balance that they must strike between their party and their constituents and what happens when they get that balance wrong **Deception** Rand Paul, 2023-10-10 Senator Rand Paul was on to Anthony Fauci from the start Wielding previously unimaginable power Fauci misled the country about the origins of the Covid pandemic and shut down scientific dissent One of the few leaders who dared to challenge America s Doctor was Senator Rand Paul himself a physician Deception is his indictment of the catastrophic failures of the public health bureaucracy during the pandemic Senator Paul presents the evidence that The Covid virus was likely the product of gain of function research at the Wuhan lab in China research funded in part by the U S government Taxpayer dollars for that research were deceptively funneled to Wuhan without the required regulatory review Fauci and his scientific

yes men knew from day one about Covid s origin and tried to cover it up Fauci and his allies ruthlessly attacked everyone including highly qualified scientists who threatened to reveal the truth about the pandemic Why Hundreds of millions of dollars of grants and unreported royalties were at stake and heads would roll if the truth got out It almost worked At Fauci s insistence the government imposed needlessly extreme lockdowns on Americans at the cost of immense personal and economic destruction Covid 19 was deadly but the real killer was the coverup led by America s most durable medical bureaucrat a man for whom the truth was too often expendable Senator Paul makes a powerful case that funding dangerous bioengineering in a totalitarian country is madness If we don t heed this warning the next pandemic could be far worse

Rick Perry Brandon Rottinghaus,2024-05-07 How Rick Perry navigated and shaped Texas politics as the state s longest serving governor Rick Perry the charming rancher pilot and politician from West Texas who was governor from 2000 to 2015 is one of the most important but polarizing figures in the state s history Over the nearly forty years he spent in the political arena his political instincts served as a radar primed to sense future political opportunities Hugging the arc of Texas political change he shifted from a rural blue dog Democrat to one of the most conservative politicians the state had elected up to that time overseeing the enactment of controversial redistricting voting and abortion measures Yet his evolution was complicated and incomplete as his stands on such topics as immigration vaccine requirements and the use of state funds to attract business ran into opposition from a growing and ever more conservative wing of the Republican Party in Texas and the nation Rick Perry is both a biography of Perry as a politician and a study of the shifts in state politics that took place during his time in office Demonstrating that Perry ranks among the most consequential governors in Texas history Brandon Rottinghaus chronicles the profound ways he accumulated power and shaped the governorship

Killing Machine Lloyd Gardner,2013-11-12 With Obama s election to the presidency in 2008 many believed the United States had entered a new era Obama came into office with high expectations that he would end the war in Iraq and initiate a new foreign policy that would reestablish American values and the United States leadership role in the world In this shattering new assessment historian Lloyd C Gardner argues that despite cosmetic changes Obama has simply built on the expanding power base of presidential power that reaches back across decades and through multiple

administrations The new president ended the enhanced interrogation policy of the Bush administration but did not abandon the concept of preemption Obama withdrew from Iraq but has institutionalized drone warfare including the White House's central role in selecting targets What has come into view Gardner argues is the new face of American presidential power high tech secretive global and lethal Killing Machine skillfully narrates the drawdown in Iraq the counterinsurgency warfare in Afghanistan the rise of the use of drones and targeted assassinations from al Awlaki to Bin Laden drawing from the words of key players in these actions as well as their major public critics With unparalleled historical perspective Gardner's book is the new touchstone for understanding not only the Obama administration but the American presidency itself Journal of the Senate of the United States of America United States. Congress. Senate, 2016 The Tea Party Explained Yuri Maltsev, Roman Skaskiw, 2013-10-08 The Tea Party first attracted the media spotlight with Rick Santelli's televised rant against the government's bailout of mortgage borrowers on February 19 2009 which instantly went viral as a video As the authors document however tea parties associated with the Ron Paul movement had already been gathering momentum for more than a year Beginning as a protest against government spending sprees the Tea Party's sudden fame forced it to define itself on many issues where the membership was seriously divided Fiscal conservatives who were usually liberal on social issues battled social conservatives in an uneasy series of maneuvers that continues unresolved and is described in the book The Tea Party Explained written by two Tea Party activists gives a well documented account of the Tea Party its origins its evolution the bitter squabbles over its direction its amazing successes in 2010 and its electoral rebuff in 2012 Maltsev and Skaskiw analyze its demographics the many organizations which have tried to represent appropriate or infiltrate the movement and the ideological divisions within
