Women's Franchise ,1908 Executive Defense Michael Useem,1993 A quiet revolution came to corporate America during the late 1980s and early 1990s Large shareholders pension funds insurance companies money managers and commercial banks exercised new found muscle pressuring senior managers to improve disappointing financial results by reshaping their organizations Michael Useem reveals how those investor pressures have transformed the inside structures of many corporations better aligning them with shareholder interests Useem draws on numerous sources including interviews with senior managers and intensive studies of seven large corporations representing a range of restructuring experiences and industries including pharmaceuticals transportation chemicals retailing and financial services He shows that organizational changes have affected many areas of corporate life headquarters staffs have been reduced authority has filtered down to operating units and compensation has become more closely tied to performance Change also extends to corporate governance where managers have fought back by seeking legal safeguards against takeovers and by staggering

board terms They've also put significant resources into building more effective relations with shareholders As Useem demonstrates this revolution has reached beyond the corporation influencing American politics and law As increasing ownership concentration has caused companies to focus more attention on shareholders corporate political agendas have shifted from fighting government regulation to resisting shareholder intrusion This book will be important reading for managers economists lawyers financial analysts and all observers of American business **New Breeder's Gazette** ,1890
