Robert Moss

The Adventures Of Golden A S S Beginnings :

The History of Fiction John Colin Dunlop, 1876 *The Novel: An Alternative History* Steven Moore, 2013-09-17

Encyclopedic in scope and heroically audacious *The Novel An Alternative History* is the first attempt in over a century to tell the complete story of our most popular literary form. Contrary to conventional wisdom, the novel did not originate in 18th century England nor even with Don Quixote but is coeval with civilization itself. After a pugnacious introduction in which Moore defends innovative demanding novelists against their conservative critics, the book relaxes into a world tour of the pre modern novel beginning in ancient Egypt and ending in 16th century China with many exotic ports of call: Greek romances, Roman satires, medieval Sanskrit novels narrated by parrots, Byzantine erotic thrillers, 5000 page Arabian adventure novels, Icelandic sagas, delicate Persian novels in verse, Japanese war stories, even Mayan graphic novels. Throughout, Moore celebrates the innovators in fiction, tracing a continuum between these pre modern experimentalists and their postmodern progeny. Irreverent, iconoclastic, informative, entertaining, *The Novel An Alternative History* is a landmark in literary criticism that will encourage readers to rethink the novel.

The Secret History of Dreaming Robert Moss, 2010. Dreaming is vital to the human story. It is essential to our survival and evolution, to creative endeavors in every field, and quite simply to getting us through our daily lives. All of us dream. Now Robert Moss shows us how dreams have shaped world events and why deepening our conscious engagement with dreaming is crucial for our future. He traces the strands of dreams through archival records and well known writings, weaving remarkable yet true accounts of historical figures who were influenced by their dreams. In this wide ranging visionary book, Moss creates a new way to explore history and consciousness, combining the storytelling skills of a bestselling novelist with the research acumen of a scholar of ancient history and the personal experience of an active dreamer.

THROUGH HISTORY 4 - The Eighteenth Century Petru Golban,2022-12-28 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value whereas criticism provides points of view having temporary and transitory significance Despite such claims the vector of methodology in our series of books dealing with the history of English literature relies on Viktor Shklovsky T S Eliot Mikhail Bakhtin and especially Yuri Tynyanov whose main reasoning would be that literature is a system of dominant central and peripheral marginalized elements to us tradition centre versus innovation margin engaged in a battle for supremacy demarginalization and the right to form a new literary system and the development or historical advancement of literature is the substitution of systems Roman Jakobson and French structuralism on the whole later Linda Hutcheon with her system and constant and Bran Nicol with the dominant to say nothing about Itamar Even Zohar and his theory of polysystem to a certain extent Julia Kristeva and even Homi Bhabha as well as our humble contribution we would like to believe maintain Tynyanov s line of thinking and concepts alive which have developed and emerged nowadays more like a kind of neo formalism Focusing on literary practice applying critical theory and emerging from within our own teaching experience the books in the present series are theoretical and surveyistic like a monograph whereas their more practical and text oriented aspect should appeal as a student handbook for didactic purposes in which certain literary works belonging to various writers of different trends movements and periods are analysed and compared with regard to their source form thematic arrangements ideas motifs character representation strategies intertextual perspectives structural or narrative techniques and other aspects *A History of Autobiography in Antiquity* Georg
