The Marketing Complex Giles Lury, 2017-09-03 Many marketers spend their days continually reducing brand positioning into single sentences to answer questions such as What is the brand message or What is the USP This tendency to perpetually condense and simplify is a carry over from a long gone era when products and services remained static and changes in platforms happened much more slowly Today however the reality is that brands are infinitely more complex and span territories consumer groups and categories Therefore to boil a branding message down into a single sentence or USP severely limits a brand's potential scope After all a brand is like a person and a person could never be accurately described in a single sentence The Marketing Complex examines the current obsession with over simplification and fearlessly challenges marketers to consider whether they are blurring the line between simplifying and simplistic By exploring the origins and appeal of simplification through some of the best known literature the book conclusively proves that endless simplification actually only serves to limit a brand's appeal By presenting a visionary new model supported by examples tools and expertly explained techniques The Marketing Complex will enable marketers to recognise the important role that depth and multiplicity play in communicating a brand message and to boldly embrace complexity when crafting their brands

Ugly Is Only Skin-Deep Dominik Imseng, 2016-09-19 IT WASN T GERMAN ENGINEERING ONLY THAT MADE THE VOLKSWAGEN BEETLE AN ICON IT WAS A MANHATTAN ADVERTISING AGENCY TOO Created in 1959 by Doyle Dane Bernbach and continued through the 60s and early 70s the campaign for the Volkswagen Beetle is considered the best of all time More than just promoting a car it promoted a new kind of advertising simple charming intelligent and most of all honest In Ugly Is Only Skin Deep Dominik Imseng retraces the creation of Doyle Dane Bernbach sneered at by the big players on Madison Avenue because of the ethnic background of its founders and employees who were mostly Jewish Readers will then learn how the agency won the Volkswagen account and how an unlikely creative team set the tone for the most admired

campaign in advertising history Finally the book examines the evolution of the Volkswagen campaign and how it managed to convince more and more Americans that smaller was better In fact the Volkswagen campaign didn't only fundamentally change the ethos of advertising it also helped trigger the cultural revolution of the 1960s Misinformation and Disinformation Victoria L. Rubin, 2022-06-14 This book geared towards both students and professionals examines the synthesis of artificial intelligence AI and psychology in detecting mis/disinformation in digital media content and suggests practical means to intervene and curtail this current global infodemic This interdisciplinary book explores technological psychological philosophical and linguistic insights into the nature of truth and deception trust and credibility cognitive biases and logical fallacies and how through AI and human intervention content users can be alerted to the presence of deception The author investigates how AI can mimic the procedures and know-hows of humans showing how AI can help spot fakes and how AI tools can work to debunk rumors and fact-check The book describes how AI detection systems work and how they fit with broader societal and individual concerns Each chapter focuses attention on key concepts and their interconnection The first part of the book seeks theoretical footing to understand our interactions with new information and reviews relevant empirical findings in behavioral sciences The second part is about applied knowledge The author looks at several known practices that guard us against deception and provides several real-world examples of manipulative/persuasive techniques in advertising political propaganda and public relations She provides links to the downloadable/executable files to three AI applications: clickbait satire and falsehood detectors via LiT RL GitHub an open access repository The book is useful to students and professionals studying AI and media studies as well as library and information professionals Examines how artificial intelligence AI and psychology can aid in detecting mis/disinformation and the language of deceit in digital media content Suggests practical/computational means to intervene and curtail the global infodemic of fake news Presents how AI can sift/sort and shuffle digital content to reduce the amount of content needed to be reviewed by humans **98% Pure Potato** John Griffiths, Tracey Follows, 2016-06-30 From the late 1960s advertising agency account planners helped to develop long-running advertising campaigns that went on to build the well-known household brands we still use today It was the golden era of advertising partly because the campaigns seemed to connect with consumers so well But who were the account planners who helped to develop these campaigns and build these brands In 98% Pure Potato the untold history of those real-life men and women is revealed through insights and anecdotes from some of account planning's most revered pioneers David Baker John Bruce David Cowan Lee Godden Christine Gray Ev Jenkins John Madell Jane Newman Jim Williams Roderick White Paul Feldwick Jan Zajac and many more Industry experts John Griffiths and Tracey Follows trace the true beginnings rise and evolution of the discipline that came to be known as advertising account planning uncovering how the UK's most iconic campaigns came to be and exploring what challenges and opportunities lie ahead This is the enlightening history of how a fundamental part of advertising practice came out of the UK as well as an instrumental guide for anyone

working or hoping to work in the advertising industry today **Marketing Science Fictions** Robert Cluley, 2024-12-19 This book explores data science in practice through an ethnographic study at a global marketing technology and research firm The book shows that while businesses have embraced data science methods to understand markets and consumers in practice they produce too much information Consequently they must be combined with creative practices that simplify and make sense of analytics Cluley shows that in the age of data science business is increasingly artistic In this case marketing science is more like marketing science fiction This is essential reading for understanding contemporary data driven business and marketing as well as social and economic relations in the age of surveillance capitalism with lessons for academics and students of marketing technology and data science **Tourism and the Creative Industries** Philip Long, Nigel D. Morpeth, 2016-05-20 This book focuses on the theoretical policy and practice linkages and disjunctures between tourism and the creative industries There are clear and strong intersections between the sectors for example in the development and application of new and emerging media in tourism festivals and cultural events showcasing the creative identity of place tours and place identities associated with film TV music and arts tourism as well as particular destinations being promoted on the basis of their creative endowments such as theatre breaks art exhibitions and fashion shows Tourism and the Creative Industries explores a variety of relationships in one volume and offers innovative and critical insights into how creative industries and tourism together contribute to place identity tourist experience destination marketing and management The book is aligned with the sectors that have been demarcated by the UK Government Department of Culture Media and Sport as comprising the creative industries advertising and marketing architecture design and designer fashion film TV video radio and photography IT software and computer services publishing and music performing and visual arts The title of this volume demonstrates how the exclusion of tourism from the creative industries is arguably perverse given that much of the work by destination managers and of private sector tourism is characterised by creativity and innovation Interdisciplinary research and international context bring a broader perspective on how the creative industries operate in varying cultural and policy contexts in relation to tourism This book brings together the parallel and disparate inter disciplinary fields of tourism and the creative industries and will be of interest to students academics and researchers interested in tourism creative industries marketing and management Phronesis Marketing Corneliu Vilsan, 2020-12-08 In recent years the environment in which advertising operates has changed As a result company leaders are under rising pressure to increase turnover and profits ahead of the industry average while fighting for new consumers Unfortunately marketing as an organizational function has been downgraded from a strategic role to a marginalized tactical and sales support department In a comprehensive guide that addresses these current challenges seasoned marketing executive Corneliu Vilsan leads advertising professionals through a practical set of principles tools and case studies to help the marketing function recapture its strategic importance by returning to the basics to create results that can be measured analyzed and replicated While closing the gap between
