000 sequences **The Sexual question** Auguste Forel,1908 The Sexual Question: A Scientific, Psychological, Hygienic and Sociological Study Auguste Forel,2020-09-28 My object is to study the sexual question under all its aspects scientific ethnological pathological and social and to seek the best solution of the numerous problems connected with it Unfortunately in publications dealing with this subject eroticism usually plays a considerable part and it is difficult for an author to abstract himself from this for it is reflected unconsciously in his thoughts As all sentiment more or less warps judgment it is the duty of scientific criticism to eliminate eroticism in order to be exact and impartial We shall therefore do all that is possible to free ourselves from it in the course of the present study The sexual question is of fundamental importance for humanity whose happiness and well being depend largely on the best solution of this important problem In dealing with such a delicate subject I shall endeavor to avoid narrow mindedness and prejudice I shall avoid tiresome quotations and shall only employ technical terms when necessary as they rather interfere with the comprehension of the subject I shall take care to explain all those which appear to me indispensable My opinions on the sexual question are based on the one hand on my scientific study of the human brain and on the other hand on the long personal experience of an alienist who has devoted himself almost as much to normal mentality and questions of social hygiene as to pathological mentality I have however been obliged to rely on the fundamental work of Westermarck with regard to ethnology this subject being strange to me Concerning sexual psychopathology I have followed the classification of Krafft Ebing The sexual question is extraordinarily complex and we cannot expect to find a simple solution for it as we can for the questions of alcoholism slavery torture etc The latter are solved in one word suppression Suppression of slavery and torture suppression of the usage of alcoholic drinks We are concerned here with ulcers artificially produced and preserved in human society ulcers which must be simply extirpated Their suppression is nothing but beneficial since far from being connected with the normal conditions of human existence they place it in peril Sexual instinct and sentiment on the contrary have their roots in life itself they are intimately bound up with humanity and therefore require quite a different treatment But human society has guided them into false and pernicious ways It is important to turn them from these in order to tranquilize and regulate their course by damming them up and canalizing them
