The Babies Essay By Susan Sontag Introduction By Mark Holborn:

The Babies Polly Borland, Susan Sontag, 2001 As perversions go infantilism is little known and even less understood Imagine fully grown men wanting to revive their earliest days dressed in diapers dipped in baths and fed from breasts as a means to sexual stimulation or familial comfort Now imagine trying to document this yes that thought that just popped into your head is right and you have an idea of the Herculean effort Borland went through to grapple with and understand people with this type of fetish Portrait photographer by trade Polly Borland compassionately explores this surreal world artfully framing the inner lives of adult babies alongside their outer manifestations Many of these men who function in society as truck drivers accountants and teachers suffered as children and were left obsessed with the warmth and care experienced by other infants and toddlers So they dress up in adult sized baby clothes powder their own bottoms and do what babies do all in an attempt to recreate that lost attachment And sometimes to get aroused *The British Journal of Photography*, 1979
