

A man in a black tuxedo with a white shirt and black bow tie is embracing a woman from behind. The woman has blonde hair styled in an updo with a silver headband and is wearing a white, sleeveless, form-fitting dress with a subtle pattern. They are standing in front of a light-colored building with a window and a decorative wrought-iron lamp post. The background is slightly blurred.

attention on Shakespeare's vocabulary has been directed towards his enrichment of the language through borrowing words from other languages and has thus concentrated on the more learned aspects of his vocabulary. However, the bulk of Shakespeare's output consists of plays and to make these appear lifelike he needed to employ a colloquial and informal style. This aspect of his work has been largely disregarded apart from his bawdy language. This dictionary includes all types of non-standard and informal language and lists all examples found in Shakespeare's works. These include dialect forms, colloquial forms, non-standard and variant forms, fashionable words and puns. *Bachelors, Manhood, and the Novel, 1850-1925*

Katherine V. Snyder, 1999-09-02. Katherine Snyder's study explores the significance of the bachelor narrator, a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne, James, Conrad, Ford and Fitzgerald. Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who, by crossing the shifting permeable boundaries of bourgeois domesticity, highlighted the limits of conventional masculinity. The very marginality of the figure, Snyder argues, effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man. Bachelor figures made, moreover, an ideal narrative device for male authors who themselves occupied vexed cultural positions. By attending to the gendered identities and relations at issue in these narratives, Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism.
