The American Journey Vol 1 7th Edition:

Mei Lanfang's American Journey Zhaohui Hong, Cunfa Dong, 2025-08-31 This groundbreaking study examines Peking Opera legend Mei Lanfang's 1930 U.S. visit through extensive primary sources and a cross-cultural lens. It meticulously chronicles his 76 performances over 182 days, reconstructing his daily itinerary, highlighting key events, and estimating box office revenues. Drawing on over 1,000 local newspaper reports from 34 states and territories, as well as diaries, memoirs, archival records, and advertisements, this book offers fresh insights into U.S.-China cultural exchange nearly a century ago, a topic with enduring contemporary relevance. Employing a mixed methods approach, it integrates grounded theory, abductive reasoning, and the theory of para-text to deliver a rigorous and innovative analysis. As both a theoretical contribution and an analytical framework, the book reimagines transpacific cultural exchange, systematically exploring Peking Opera diplomacy, which involves non-governmental individuals and collectives engaged in cultural, artistic, commercial, and educational interactions. Furthermore, it delves into inculturation, examining how Mei Lanfang's visit contributed to the localization of Chinese culture in America, fostering cultural accommodation, adaptation, and integration. Finally, it introduces the theory of marginalization studies, shedding light on the peripheral figures and events that played a crucial role in Mei's visit. By combining rigorous analysis with innovative theoretical perspectives, this book reinterprets and reimages the significance of Mei Lanfang's visit, offering an essential resource for scholars and anyone interested in modern Chinese history, transpacific studies, cultural diplomacy, and U.S.-China relations.

American Journey Wes Davis, 2023-06-06 Jaunty Davis excels in making his characters come alive on the page. Christoph Irmscher, *Wall Street Journal*. The epic road trips and surprising friendship of John Burroughs, nineteenth-century naturalist, and Henry Ford and Thomas Edison, inventors of the modern age. In 1913, an unlikely friendship blossomed between Henry Ford and famed naturalist John Burroughs. When their mutual interest in Ralph Waldo Emerson led them to set out in one of Ford's Model Ts to explore the Transcendentalist's New England, the trip would prove to be the first of many excursions that would take Ford and Burroughs together with an enthusiastic Thomas Edison across America. Their road trips increasingly ambitious in scope, transported members of the group to the 1915 Panama-Pacific International Exposition in San Francisco, the Adirondacks of New York, and the Green Mountains of Vermont, finally paving the way for a grand 1918 expedition through southern Appalachia. In many ways, their timing could not have been worse. With war raging in Europe and an influenza pandemic that had already claimed thousands of lives abroad beginning to plague the United States, it was an inopportune moment for travel. Nevertheless, each of the men who embarked on the 1918 journey would subsequently point to it as the most memorable vacation of their lives. These travels profoundly influenced the way Ford, Edison, and Burroughs viewed the world, nudging their work in new directions through a transformative decade in American history. In *American Journey*, Wes Davis re-creates these landmark adventures through which one of the great naturalists of the nineteenth century helped the men who invented the modern age reconnect.

On Pedantry Arnoud S. Q. Visser, 2025-11-04 A lively and entertaining cultural history of a supremely annoying intellectual vice Intellectuals have long provoked scorn and irritation even downright aggression Many learned individuals have cast such hostility as a badge of honor a sign of envy or a form of resistance to inconvenient truths *On Pedantry* offers an altogether different perspective revealing how the excessive use of learning has been a vice in Western culture since the days of Socrates Taking readers from the academies of ancient Greece to today's culture wars Arnoud Visser explains why pretentious and punctilious learning has always annoyed us painting vibrant portraits of some of the most intensely irritating intellectuals ever known from devious sophists and bossy savantes to hypercritical theologians dry as dust antiquarians and know it all professors He shows how criticisms of pedantry have typically been more about conduct than ideas and he demonstrates how pedantry

served as a weapon in the perennial struggle over ideas social status political authority and belief Shifting attention away from the self proclaimed virtues of the learned to their less than flattering vice Visser makes a bold and provocative contribution to the history of Western thought Drawing on a wealth of sources ranging from satire and comedy to essays sermons and film On Pedantry sheds critical light on why anti intellectual views have gained renewed prominence today and serves as essential reading in an age of rising populism across the globe **Parameters** ,2003
