The Authoritarian Dynamic Paperback:

The Authoritarian Dynamic Karen Stenner, 2005-07-25 What is the basis for intolerance This book addresses that question by developing a universal theory about what causes intolerance of difference in general which includes racism political intolerance e g restriction of free speech moral intolerance e g homophobia supporting censorship opposing abortion and punitiveness It demonstrates that all these seemingly disparate attitudes are principally caused by just two factors individuals innate psychological predispositions to intolerance authoritarianism interacting with changing conditions of societal threat

The Stranger at Hand (paperback) András Kovács, 2010-10-15 In 2010 an extremist party with openly racist views using barely concealed antisemitic language received 17% of the votes in the parliamentary elections in Hungary How can this awkward development in a newly established European democracy be explained In this book the author examines antisemitism in post communist Hungary in light of the empirical sociological studies of the past 20 years The principal aim is to reconstruct the range intensity and content of anti Jewish prejudices as well as the factors affecting their change over time The author also reveals the social background against which the newest political developments should be analyzed and helps to determine whether in Hungary today antisemitism is only an ephemeral temporary phenomenon or a gradually articulating dynamic political ideology his work is indispensable for understanding politics and its historical social and cultural background in contemporary Hungary Gabor T Rittersporn

Russian Conservatism Glenn Diesen, 2021-01-12 Russian conservatism is making a forceful return after a century of experimenting with socialism and liberalism Conservatism is about managing change by ensuring that modernization evolves organically by building on the past Conservatism has a natural attraction for Russia as its thousand year long history is largely characterized by revolutionary change the destructive process of uprooting the past to give way to modernity Navigating towards gradual and organic modernization has been a key struggle ever since the Mongols invaded in the early 13th century and decoupled Russia from Europe and the arteries of international trade Russian history has consisted of avoiding revolutions that are either caused by falling behind on modernization or making great leaps

forward that disrupts socio economic and political traditions Russian conservatives are now tasked with harmonizing the conservative ideas of the 19th century with the revolutionary changes that shaped Russia in the 20th century The rise of Asia now provides new opportunities as it enables Russia to overcome its fixation on the West and develop a unique Russian path towards modernization that harmonizes its Eurasian geography and history

The Decay of Western Civilisation and Resurgence of Russia Glenn Diesen,2018-09-03 What explains the rise of populist movements across the West and their affinity towards Russia UKIP s Brexit victory Trump s triumph and the successive elections and referendums in Europe were united by a repudiation of the liberal international order These new political forces envision the struggle to reproduce and advance Western civilisation to be fought along a patriotism cosmopolitanism or nationalism globalism battlefield in which Russia becomes a partner rather than an adversary Armed with neomodernism and geoeconomics Russia has inadvertently taken on a central role in the decay of Western civilisation This book explores the cooperation and competition between Western and Russian civilisation and the rise of anti establishment political forces both contesting the international liberal order and expressing the desire for closer relations with Russia Diesen proposes that Western civilisation has reached a critical juncture as modern society gesellschaft has overwhelmed and exhausted the traditional community gemeinschaft and shows the causes for the decay of Western civilisation and the subsequent impact on cooperation and conflict with Russia The author also considers whether Russia s international conservatism is authentic and can negate the West s decadence or if it is merely a shrewd strategy by a rival civilisation also in decay This volume will be of interest to scholars of international relations political science security studies international political economy and Russian studies

Branding Authoritarian Nations Petra Alderman,2023-07-28 Branding Authoritarian Nations offers a novel approach to the study of nation branding as a strategy for political legitimation in authoritarian regimes using the example of military ruled Thailand The book argues that nation branding is a political act that is integral to state legitimation processes particularly in the context of authoritarian regimes It applies its alternative reading of nation branding to eight different sectors tourism economy foreign direct investment foreign policy education culture public relations and the private sector The author explains that nation branding produces specific kinds of applied national myths referred to as strategic national myths She shows that nation branding is an inherently inward looking strategy aimed at shaping the social attitudes and behaviours of the nation s citizens in line with the government s domestic agenda and legitimation needs Providing the first comprehensive analysis of nation branding in Thailand and the first book length account of the country s political developments since the 2014 2019 military rule the book is primarily aimed at academics in the disciplines of politics international relations communication and area studies as well as business cultural and intercultural studies
