Bread From Heaven An Exegetical Study of The Concept of Mnna in the Gospel of John asnd the writings of Philo , Bread From Heaven Peder

Borgen, 2017-04-01 If John 6 can be considered the Grand Central Station of Johannine Critical issues Peder Borgen s 1965 monograph Bread from Heaven proved to be one of the most incisive and important monographs on that difficult chapter With extensive implications for addressing a host of other New Testament issues including the unity and disunity of John s narrative relations between Johannine and Synoptic traditions and the socio religious context of the Fourth Gospel Borgen s work argues hard for a unitive view of the Johannine text Rather than seeing John s story of Jesus as an amalgam of disparate sources or as dependent on the Synoptics Borgen explores a number of commonalities between contemporary Jewish

writings including the writings of Philo and haggadic midrashim In so doing new glimpses are also availed onto the dialectical Johannine situation including an antidocetic thrust as well as Johannine synagogue engagements The enduring impact of Borgen s work shows the Fourth Gospel to represent a self standing tradition characterized by Jewish engagements of biblical texts contributing to homiletic expansions upon memories of the ministry of Jesus for later generations From the Foreword by Paul N Anderson *Code of Federal Regulations* ,2004 **Bread from Heaven** Peder Borgen,1965
