Schools across America are rolling out new, more rigorous curricula in order to meet the demands created by a new set of English and Mathematics standards known nationally as the Common Core State Learning Standards. You can expect to see a number of changes in your child's sixth grade class. In English, students will now read more Informational Texts. In Mathematics, students will spend more time developing their understanding of specific and important math concepts. Students will be expected to both demonstrate understanding of each topic and apply their mathematical skills to real-world situations. As a parent, it is important not only to understand the new standards but also to have the tools to help your child do his or her best in school.
