Essential Cases on Damage Benedict Winiger,Helmut Koziol,Bernhard A. Koch,Reinhard Zimmermann,2011-11-30 The increasing Europeanisation of the law of delict torts has produced textbooks casebooks monographs and also sets of model rules of a genuinely European character A major gap still existing today relates to the experiences gathered in the national legal systems over the past decades The present work attempts to fill this gap for one key element of tort law the notion of damage It thus does what the previous volume in the Digest of European Tort Law series did for another key element ie natural causation Once again the publication contains a selection of the most important cases decided in 26 states across Europe as well as by the European Court of Justice For each case the facts and the relevant court decision are presented and the decision is analysed within the wider context of the development of the respective legal system In addition the editors provide comparative analyses of the case law reported in this volume concerning all the specific problems raised under the heading of damage The publication also looks into how key cases would be resolved under the European model rules drafted in the field of tort law and it also highlights cases from earlier periods of legal history The editors believe that the material gathered here may provide guidance for an organic convergence of the national legal systems in Europe It constitutes the basis of an *acquis commun* that is infinitely richer though also much more complex than the rather bland and abstract concepts contained in national codifications European legislation and the modern model rules The Global Jihad Movement Rohan Gunaratna,Aviv Oreg,2015-07-01 Three to four dozen international and local organizations up to one hundred thousand individuals and millions of supporters are part of the phenomenon of Global Jihad The Global Jihad Movement endeavors to name and differentiate these organizations and to explain their infrastructure operational capabilities and activities It also analyzes their mutual and multi lateral relations inside and outside the jihadi framework In essence this is a who's who in the Global Jihad The first section deals with ideology focusing on the emergence of the Salafi

and the Salafi jihadi ideologies which are still the most important factors behind the operational performance of Global Jihadi elements The second section addresses the affiliate groups of al Qaeda such as al Qaeda in the Arabian Peninsula al Qaeda in the Islamic Maghreb and al Qaeda in Iraq This section focuses mainly on the groups that adopted al Qaeda s Global Jihad strategy by incorporating Western targets in their vicinity of operations in their targeting policies The next section discusses the different jihad arenas that have emerged over the last three decades absorbing jihadi fighters from Islamic communities around the world Finally tThe last section examines the long process of radicalization from regular and normative lifestyle patterns to the final jihadi stage which in many cases involves martyrdom as suicide bombers in the name of radical Islam
