

The background of the book cover features a stack of books, with the spines of several volumes visible in shades of tan and brown. A vertical line divides the cover into two sections: a dark brown section on the left and a lighter tan section on the right. The title text is primarily located on the right side, with the word 'The' in a small, black, serif font at the top left. 'Academic' is in a larger, white, serif font, partially overlapping the dark brown section. 'JOB' is the largest word, in a white, serif font, spanning across the vertical line. 'Search' is in a white, serif font, also spanning across the line. 'Handbook' is in a black, serif font, positioned below 'Search' on the right side.

Teaching Engineering, Second Edition Phillip C. Wankat, Frank S. Oreovicz, 2015-01-15 The majority of professors have never had a formal course in education and the most common method for learning how to teach is on the job training This represents a challenge for disciplines with ever more complex subject matter and a lost opportunity when new active learning approaches to education are yielding dramatic improvements in student learning and retention This book aims to cover all aspects of teaching engineering and other technical subjects It presents both practical matters and educational theories in a format useful for both new and experienced teachers It is organized to start with specific practical teaching applications and then leads to psychological and educational theories The practical orientation section explains how to develop objectives and then use them to enhance student learning and the theoretical orientation section discusses the theoretical basis for learning teaching and its impact on students Written mainly for PhD students and professors in all areas of engineering the book may be used as a text for graduate level classes and professional workshops or by professionals who wish to read it on their own Although the focus is engineering education most of this book will be useful to teachers in other disciplines Teaching is a complex human activity so it is impossible to develop a formula that guarantees it will be excellent However the methods in this book will help all professors become good teachers while spending less time preparing for the classroom This is a new edition of the well received volume published by McGraw Hill in 1993 It includes an entirely revised section on the Accreditation Board for Engineering and Technology ABET and new sections on the characteristics of great teachers different active learning methods the application of technology in the classroom from clickers to intelligent tutorial systems and how people learn

Using the Biological Literature Diane Schmidt, 2014-04-14. The biological sciences cover a broad array of literature types from younger fields like molecular biology with its reliance on recent journal articles, genomic databases and protocol manuals to classic fields such as taxonomy with its scattered literature found in monographs and journals from the past three centuries. *Using the Biological Literature: A Practical Guide, Fourth Edition* is an annotated guide to selected resources in the biological sciences, presenting a wide-ranging list of important sources. This completely revised edition contains numerous new resources and descriptions of all entries, including textbooks. The guide emphasizes current materials in the English language and includes retrospective references for historical perspective and to provide access to the taxonomic literature. It covers both print and electronic resources, including monographs, journals, databases, indexes, and abstracting tools, websites, and associations, providing users with listings of authoritative informational resources of both classical and recently published works. With chapters devoted to each of the main fields in the basic biological sciences, this book offers a guide to the best and most up-to-date resources in biology. It is appropriate for anyone interested in searching the biological literature, from undergraduate students to faculty researchers and librarians. The guide includes a supplementary website dedicated to keeping URLs of electronic and web-based resources up to date, a popular feature continued from the third edition.

The Latinx Guide to Graduate School Genevieve Negrón-Gonzales, Magdalena L. Barrera, 2023-01-30. In *The Latinx Guide to Graduate School*, Genevieve Negrón-Gonzales and Magdalena L. Barrera provide prospective and current Latinx graduate students in the humanities and social sciences fields with a roadmap for surviving and thriving in advanced degree programs. They document the unwritten rules of graduate education that impact Latinx students, demystifying and clarifying the essential requirements for navigating graduate school that Latinx students may not know because they are often the first in their families to walk that path. Topics range from identifying the purpose of graduate research, finding the right program, and putting together a strong application to developing a graduate student identity, cultivating professional and personal relationships, and mapping out a postgraduate school career. The book also includes resources for undocumented students. Equal parts how-to guide, personal reflection manifesto, and academic musing, this book gives a culturally resonant perspective that speaks to the unique Latinx graduate student experience.

Forging a Rewarding Career in the Humanities Karla P. Zepeda, Ellen Mayock, 2014-11-26. As has been abundantly documented in the popular and academic press, the humanities are facing challenging times marked by national debate regarding the importance of the humanities in higher education, program and budget cuts, and an ever-decreasing number of tenure-track jobs. In addition, the humanities face quite literally a quantification of their value as the Academy adopts a more corporate

mindset This volume provides advice to professionals in the humanities on how to forge a useful compelling and productive career The book s 13 chapters address professional approaches to developing and maintaining an active research agenda fomenting the ideals of the teacher scholar model managing the service demands within and outside the college or university and navigating institutional politics The collection offers practical and theoretical approaches to higher education personal anecdotes intelligent advice and interviews with colleagues in the humanities Specific themes addressed include the transition from graduate student to humanities professional diverging from prescribed paths the humanities professor as creative writer moving from secondary to post secondary education humanities in an international market based context and participation in governance structures Cover photograph Silent Flutes by Adilia D Ortega The Research Companion Petra M.
