wide ranging foundation for reimagining the universe as based in consciousness rather than matter He presents in depth analysis of the standard scientific description of the universe revealing the holes in its theories Exploring the interpenetration of matter and all reality by consciousness the author looks at reincarnation and past life memories examining famous and lesser known but verifiable accounts He then explores the nature and origin of consciousness with accompanying explorations of animal consciousness the brain as a computer multiple identities thoughtforms soul pictures and paranormal phenomena like UFOs faeries and poltergeists He also examines concepts from physics that combine elements of both consciousness and matter such as collapsing waveforms and the uncertainty principle of quantum mechanics Examining nonlocal and transpersonal modes of consciousness Grossinger looks at the difference between consciousness and personal identity He expands this discussion with reflections on Sethian cosmology using Seth s own words and Jane Roberts s and John Friedlander s interpretations He reveals that consciousness also encompasses what has yet to manifest and explains why the universe exists at all why there is something rather than nothing Skewering the materialist paradigm and placing consciousness alongside mass gravity and heat as an essential component of the universe Grossinger proposes that reality is a thoughtform where sentient beings collaborate to bring about a concrete realm vibrating at their own frequency

Adam's Gift Cindy Williams Adams MEd, 2024-06-12 In *Adam s Gift* author Cindy Williams Adams shares the story of the death of her twenty seven year old son Adam and her subsequent spiritual journey Hi I m Adam and I m dead Well not really I m still here The first night in the hospital while Adam was on life support around midnight a nurse advised me to go home and get some rest I looked at Adam s monitor His heart rate was 180 a normal heart rate for an infant At that point his vital signs were nominal I said I d go home when Adam s heart rate reached 111 Greg and I sat in the dark listening

to the beep beep of Adam's monitor. A few minutes later Greg said, "Look at the monitor. Adam's heart rate was 111." My youngest sister Rhonda and I clipped some locks of Adam's dark brown hair as a keepsake. I was sitting at the head of his bed, examining our handiwork, when I heard Adam say jokingly, "Mom, what the fuck did you do to my hair?" In that pivotal moment, if I'd talked myself out of believing what I'd just experienced, I would have grieved Adam's death in an entirely different way. Trusting the communication from Adam was real not only allowed me to accept the loss of Adam's physical presence; it allowed me to create an entirely new relationship with the part of Adam that is eternal: Adam's lungs, kidneys, pancreas, and liver saved the lives of two individuals and significantly improved the lives of three others. Adam's liver went to a young mother from Indiana where I was born; Adam's pancreas went to a woman with diabetes who'll never have to suffer another amputation; Adam's kidneys went to a woman from somewhere in California and to a man in Oakland who no longer plans their life around the need for dialysis; Adam's lungs went to a seventy-two-year-old man from Arizona. From January 2011 to February 2023, Adam led me on a twelve-year-long wild goose chase where I collected seemingly random puzzle pieces that, when presented altogether, finally make sense. From a past life as a knowledge keeper in Atlantis to serving as an intergalactic guardian, Adam's mind-blowing after-death adventures will change everything you thought you knew about life and death and the world as we know it. Don't let your skin suit fool you into thinking you're anything less than a co-creator with God. We don't have to die to evolve to a higher level of consciousness. When it comes to consciousness-raising, Adam and I are giving away the cheats. Adam's Gift is more than a memoir; it's a multidimensional multimedia experience. Brace yourself: you're in for an e-ticket ride. Adam's debut memoir is an effectively concise account of a mother navigating her own grief while also finding ways to help others heal. Adam's vividly renders her story of her life's journey and her sense of exuberance is evident throughout. Kirkus review: "The story of Adam and the special bond he shares with his mom gives those who question an afterlife Dannion Brinkley, internationally bestselling author of *Saved by the Light*, *At Peace in the Light*, and *Secrets of the Light*. You don't have to have experienced loss to love Adam's Gift. It isn't a book of grief; its gift to the reader is about the resilience of love and the unwavering faith of a mother faced with unimaginable circumstances and boundless faith." Meg Blackburn Losey, PhD, author of international bestsellers *The Children of Now*, *The Secret History of Consciousness*, and *Touching the Light*. Through the experiences recounted by Adam's mother, readers are immersed in a world where love transcends physical boundaries and continues to connect souls even after death. Rhys Wynn Davies, Australia's 2023 Psychic of the Year and author of *How to Talk to the Dead in 10 Easy Steps*, "Adam's Gift was so riveting to read I came away from it feeling as if I had gained so much. I can't thank Adam and Cindy enough for writing this book." Loss, Survive, Thrive Meryl Hershey Beck, 2019-11-22 No one is prepared for the loss of a child No one It feels completely unnatural for children to predecease their parents Although it is not widely known each year there are over 135 000 under 40 year old deaths in the U S alone And according to one study 19% of parents outlive their children often carrying the weight of horrendous grief to their own graves Isolated and alone is how parents often describe the grief process Well meaning friends and family members usually rush to their side in the beginning Once the floral arrangements have wilted and the dinners from caring friends diminish there isn't really much that can be said to bring comfort to a suffering parent especially if those friends haven't experienced it themselves Unfortunately when these caring friends do bring up the loss quite often they say the wrong things Loss Survive Thrive offers a lifeline of hope Each chapter is an inspirational story written by a parent who also experienced the agony of losing a child reclaimed his/her vitality and is now living a fulfilling life Every story is authentic and heartfelt designed to uplift and inspire The collective authors reach out through the pages to virtually hold hands with those who are suffering We the contributors have all been there We know their pain and we know about survival And now through our stories we offer comfort and support in helping them get through the toughest time of their lives Bereaved parents share an unspeakable bond And Loss Survive Thrive imparts
