The American Opportunity Tax Credit Overview Analysis And Policy Options:

The American Opportunity Tax Credit Crandall-Hollick, 2015-01-03 The American Opportunity Tax Credit AOTC is a temporary tax provision that provides financial assistance to taxpayers whose children or who themselves are attending college The AOTC is scheduled to expire at the end of 2017 at which point Congress may allow the provision to expire extend the provision in its current form or extend a modified version of the AOTC In light of increased congressional interest in reforming the tax code policy makers may choose to consider modifying the AOTC in conjunction with other education tax benefits 1 The Joint Committee on Taxation JCT estimated that all education tax benefits for individuals cost 46.7 billion in 2014 Higher education tax credits of which the AOTC is the largest accounted for 24.5 billion 52% of the total *The American Opportunity Tax Credit* Margot Crandall-Hollick, 2012-07-28 The American Opportunity Tax Credit AOTC enacted on a temporary basis by the American Recovery and Reinvestment Act ARRA P L 111 5 and extended through the end of 2012 by the Tax Relief Unemployment Insurance Reauthorization and Job Creation Act of 2010 P L 111 312 is a partially refundable tax credit that provides financial assistance to taxpayers who are attending college or whose children are attending college The credit worth up to 2,500 per student can be claimed for a student's first four years of post secondary education In addition 40% of the credit up to 1,000 can be received as a refund by taxpayers with little or no tax liability The credit phases out for taxpayers with income between 80,000 and 90,000 160,000 and 180,000 for married couples filing jointly and is hence unavailable to taxpayers with income above 90,000 180,000 for married couples filing jointly There are a variety of other eligibility requirements associated with the AOTC including the type of degree the student is pursuing the number of courses the student is taking and the type of expenses which qualify Prior to the enactment of the AOTC there were two permanent education tax credits the Hope Credit and the Lifetime Learning Credit The AOTC temporarily replaced the Hope Credit from 2009 through the end of 2012 the Lifetime Learning Credit remains unchanged A comparison of these two credits indicates that the AOTC is both larger on a per capita and aggregate basis and more widely available in comparison to the Hope Credit Data from the Internal Revenue Service IRS indicates that enactment of the AOTC contributed to a more than doubling of the amount of education credits claimed by taxpayers Education tax credits were intended to provide federal financial assistance to students from middle income families who may not benefit from other forms of traditional student aid like Pell Grants The enactment of the AOTC reflected a desire to continue to provide substantial financial assistance to students from middle income families while also expanding the credit to certain lower and upper income students A distributional analysis of the AOTC highlights that this benefit is targeted to the middle class with more than half 53% of the estimated 16 billion of AOTCs in 2009 going to taxpayers with income between 30,000 and 100,000 One of the primary goals of education tax credits including the AOTC is to increase college attendance Studies analyzing the impact education tax incentives have had on college attendance are mixed Recent research that has focused broadly on

education tax incentives that lower tuition costs and have been in effect for several years including the Hope and Lifetime Learning Credits found that while these credits did increase attendance by approximately 7% 93% of recipients of these benefits would have attended college in their absence Even though the AOTC differs from the Hope Credit in key ways there are a variety of factors that suggest this provision may also have a limited impact on increasing college attendance In addition a recent report from the Treasury Department s Inspector General for Tax Administration TIGTA identified several compliance issues with the AOTC There are a variety of policy options Congress may consider regarding the AOTC including extending the credit extending a modified AOTC or repealing the Hope and Lifetime Credits and extending a modified AOTC that includes provisions included in these credits Alternatively Congress may want to examine alternative ways to reduce the cost of higher education

Tax Policy and the Economy, Volume 29 Jeffrey R. Brown, 2016-01-20 The papers in Volume 29 of Tax Policy and the Economy illustrate the depth and breadth of the taxation related research by NBER research associates both in terms of methodological approach and in terms of topics In the first paper former NBER President Martin Feldstein estimates how much revenue the federal government could raise by limiting tax expenditures in various ways such as capping deductions and exclusions The second paper by George Bulman and Caroline Hoxby makes use of a substantial

expansion in the availability of education tax credits in 2009 to study whether tax credits have a significant causal effect on college attendance and related outcomes In the third paper Casey Mulligan discusses how the Affordable Care Act ACA introduces or expands taxes on income and on full time employment In the fourth paper Bradley Heim Ithai Lurie and Kosali Simon focus on the young adult provision of the ACA that allows young adults to be covered by their parents insurance policies They find no meaningful effects of this provision on labor market outcomes The fifth paper by Louis Kaplow identifies some of the key conceptual challenges to analyzing social insurance policies such as Social Security in a context where shortsighted individuals fail to save adequately for their retirement

Tax Policy and the Economy, Volume 27 Jeffrey R. Brown, 2013-08-22 Taxation policy was a central part of the policy debates over the fiscal cliff Given the importance of fiscal issues it is vital for rigorous empirical research to inform the policy dialogue In keeping with the NBER's tradition of carrying out rigorous but policy relevant research Volume 27 of *Tax Policy and the Economy* offers insights on a number of key tax policy questions This year's volume features six papers by leading scholars who examine the tax treatment of tuition at private K 12 schools the potential streamlining of the federal rules for post secondary financial aid and the use of tax return information in this process the effect of tax and benefit programs on incentives to work the macroeconomic effects of fiscal adjustments and the set of factors that contributed to the weakening US fiscal outlook in the last decade

Investing in the Health and Well-Being of Young Adults National Research Council, Institute of Medicine, Board on Children, Youth, and Families, Committee on Improving the Health, Safety, and Well-Being of Young Adults, 2015-01-27 Young adulthood ages approximately 18 to 26 is a critical period of development with long lasting implications for a person's economic security health and well being Young adults are key contributors to the nation's workforce and military services and since many are parents to the healthy development of the next generation Although millennials have received attention in the popular media in recent years young adults are too rarely treated as a distinct population in policy programs and research Instead they are often grouped with adolescents or more often with all adults Currently the nation is experiencing economic restructuring widening inequality a rapidly rising ratio of older adults and an increasingly diverse population The possible transformative effects of these features make focus on young adults especially important A systematic approach to understanding and responding to the unique circumstances and needs of today's young adults can help to pave the way to a more productive and equitable tomorrow for young adults in particular and our society at large *Investing in The Health and Well Being of Young Adults* describes what is meant by the term young adulthood who young adults are what they are doing and what they need This study recommends actions that nonprofit programs and federal state and local agencies can take to help young adults make a successful transition from adolescence to adulthood According to this report young adults should be considered as a separate group from adolescents and older adults *Investing in The Health and Well Being of Young Adults* makes the case that increased efforts to improve high school and college graduate rates and education and workforce development systems

that are more closely tied to high demand economic sectors will help this age group achieve greater opportunity and success. The report also discusses the health status of young adults and makes recommendations to develop evidence based practices for young adults for medical and behavioral health including preventions. What happens during the young adult years has profound implications for the rest of the life course and the stability and progress of society at large depends on how any cohort of young adults fares as a whole. Investing in The Health and Well Being of Young Adults will provide a roadmap to improving outcomes for this age group as they transition from adolescence to adulthood.

The Neoliberal Agenda and the Student Debt Crisis in U.S. Higher Education Nicholas Hartlep, Lucille Eckrich, Brandon Hensley, 2017-05-18

Capturing the voices of Americans living with student debt in the United States, this collection critiques the neoliberal interest driven debt based system of U.S. higher education and offers alternatives to neoliberal capitalism and the corporatized university. Grounded in an understanding of the historical and political economic context, this book offers auto ethnographic experiences of living in debt and analyzes alternatives to the current system. Chapter authors address real questions such as: Do collegians overestimate the economic value of going to college? and How does the monetary system that student loans are part of operate? Pinpointing how developments in the political economy are accountable for students' university experiences, this book provides an authoritative contribution to research in the fields of educational foundations and higher education policy and finance. *Tax Expenditures*, 2012. *Tax Expenditures* Library of Congress.

Congressional Research Service, 2014. A Problem of Fit Phillip B. Levine, 2022-04-22. A critical examination of the complex system of college pricing: how it works, how it fails, and how fixing it can help both students and universities. How much does it cost to attend college in the United States today? The answer is more complex than many realize. College websites advertise a sticker price, but uncovering the actual price—the one after incorporating financial aid—can be difficult for students and families. This inherent uncertainty leads some students to forgo applying to colleges that would be the best fit for them or even not attend college at all. The result is that millions of promising young people may lose out on one of society's greatest opportunities for social mobility. Colleges suffer too, losing prospective students and seeing lower enrollments and less socioeconomic diversity. If markets require prices to function well, then the American higher education system rife as it is with ambiguity in its pricing amounts to a market failure. In A Problem of Fit, economist Phillip B. Levine explains why institutions charge the prices they do and discusses the role of financial aid systems in facilitating and discouraging access to college. Affordability issues are real, but price transparency is also part of the problem. As Levine makes clear, our conversations around affordability and free tuition miss a larger truth: that the opacity of our current college financing systems is a primary driver of inequities in education and society. In a clear-eyed assessment of educational access and aid in a post-COVID-19 economy, A Problem of Fit offers a trenchant new argument for educational reforms that are well within reach.
