The Applied Economics Of Transport:

The Applied Economics of Transport Mark Taylor, 2014-07-16 This book provides an introduction and overview to nine applied financial studies on the theme of transport. The studies cover a wide range of topics from value based trading of real assets in shipping to the determinants of efficiency and productivity in European railways to the market for used cars. The studies employ a variety of applied techniques across a range of countries analysing a range of different modes of transport. This book was originally published as a special issue of *Applied Economics* Special Theme: The Applied Economics of Transport, 2009

The Economics and Political Economy of Transportation Security Kenneth Button, 2016-04-29 In this clear and observant book Kenneth Button provides an overview of the economics and political economy of transport security considering its policy from an economic perspective. His analysis applies micro economic theory to transport issues supporting and enhancing the larger framework of our knowledge about personal industrial and national security. Button's focus on the economic aspects of transportation security strives to move beyond established technical and legal approaches working within both the narrower microeconomics of individual and corporate efficiency and the larger trends in economic policy making. By fitting current security trends into economic analysis he discusses not only contemporary developments but also their economic implications and approaches for assessing alternative strategies. This examination of applied economics is a must read for those looking to gain a broader view of transport security issues. It is a critical resource for those in the security industries as well as those involved in education about transport security matters and applied microeconomics.

Advances in Panel Data Analysis in Applied Economic Research Nicholas Tsounis, Aspasia Vlachvei, 2018-04-17 This proceedings volume presents new methods and applications in applied economic research with an emphasis on advances in panel data analysis.
