The Healing Enigma Robert Jaggs-Fowler,2018-11-20 The concept of the physician priest is an ancient one existing pre Christianity and historic references to the role can be found within the majority of religions and across all continents However despite a growing body of scientific evidence indicating the value of spirituality the 20th century medical profession within the Western world has placed religion at arm s length effectively excluding such discussion from the medical consultation Referring to both primary and secondary sources within theological medical legal historic and philosophical literature Robert puts forward an argument in support of a 21st century role for the physician priest He argues that if the physician can exercise the role of priest in addition to their medical role they can thereby truly minister to the whole person in terms of mind body and soul With consideration of modern NHS funding streams Robert suggests a radical proposal whereby the Church of England and medical educational institutions might combine to offer dual theological and medical training The result would establish a new breed of professional person ideally positioned in respect to the care of the elderly and those with terminal illness The Healing Enigma suggests that this not only assists with the provision of whole person care but also allows the Church to firmly re establish itself in the 21st century within its Christian healing tradition

Roman Law in the Modern World: Subject-guides to the texts of Roman law, to the modern codes and legal literature index to vols. I-III Charles Phineas Sherman,1917 **Shaping Church Law Around the Year 1000** Greta Austin,2017-05-15 This study of Burchard s Decretum a popular book of Catholic canon law compiled just after the year 1000 sheds new light on the development of law and theology long before the Gregorian Reform normally considered as a watershed in the history of the Latin Church Practical episcopal concerns and an appreciation of new scholarly methods led Burchard to be dissatisfied with the quality of contemporary jurisprudence and particularly with the teaching texts available to local bishops Drawing upon new manuscript discoveries the author shows how Burchard tried to create a new text that would address these problems He carefully selected and compiled canons from earlier collections and then went on to tamper systematically with the texts he had chosen By doing so he created a book of church law that appeared to be based on indisputable authority that was internally consistent and that was easy to apply through logical extrapolation to new cases The present study thus provides a window into the development of legal and theological reasoning in the medieval West and suggests that thanks to the work of ambitious bishops the flowering of law and theology began far earlier and for different reasons than scholars have heretofore supposed *The Perfume Companion* Sarah McCartney,Samantha Scriven,2021-11-09 The Perfume Companion is a beautifully illustrated compendium of almost 500 recommended scents It organizes and explores fragrances in a bid to guide readers toward new favourites Filled with vibrant descriptions and specially commissioned detailed illustrations that bring

Namey,2015 Providing a comprehensive foundation for planning executing and monitoring public health research of all types this book goes beyond traditional epidemiologic research designs to cover technology based approaches emerging in the new public health landscape Law, Person, and Community John J. Coughlin,2012-03-16 Law Person and Community Philosophical Theological and Comparative Perspectives on Canon Law takes up the fundamental question What is law through a consideration of the interrelation of the concepts of law person and community As with the concept of law described by secular legal theorists canon law aims to set a societal order that harmonizes the interests of individuals and communities secures peace guarantees freedom and establishes justice At the same time canon law rests upon a traditional understanding of the spiritual end of the human person and religious nature of community The comparison of one of the world s ancient systems of religious law with contemporary conceptions of law rooted in secular theory raises questions about the law s power to bind individuals and communities Professor John J Coughlin employs comparative methodology in an attempt to reveal the differing concepts of the human person reflected in both canon law and secular legal theory Contrasting the

contemporary positivistic view of law with the classical view reflected in canon law Law Person and Community discusses the relationship between canon law theology and natural law It also probes the interplay between the metaphysical and historical in the theory of law by an examination of canonical equity papal authority and the canon law of marriage It juxtaposes the assumptions of canon law about church state relations with those of the modern liberal state as exemplified by U S first amendment jurisprudence No scholarly work has yet addressed this question of how the principles and substance of canon law both past and present relate to current issues in legal theory such as the foundation of human rights and in particular the right of religious freedom for individuals and communities
