

You must be entitled to authorise payments by your System Administrator. Authorisation entitlements include assigning a signature group, daily authorisation limits for individual accounts, or sole transaction control (if applicable to your company).

Note: Use the Authorisation Summary tool to determine which items require action. You can perform the same action on all items or manage items individually. The action you choose will affect items on the current page. Continue to make choices for items listed on additional pages. The Authorisation Summary provides general information and shows actions you can take on items.

Step 1

Access the Authorisation Summary tool on the Payments tab or any other location on your personal page.

Step 2

From the Authorisation Summary tool, click the number link under instruction column for a payment type. The Pending authorisation summary of transactions for the selected payment type appears.

Note: The number of instructions displayed on the Authorisation Summary tool may not match the number of instructions displayed on the Pending authorisation page. This is because the Pending authorisations page only displays instructions you are entitled to authorise.

Step 3

To authorise an individual item, choose **Authorise** from the Action arrow on the Pending Authorisation page.

Step 4

Alternatively, you have three other options to authorise pending instructions:

- Authorise selected
- Authorise selected one by one
- Prepare selected for authorisation

Refer to the Payments User Guide for more information on these three options.

Step 5

An acknowledgement confirms your action. Click **Close** or **Close window and refresh summary list**. Further authorisations may be required depending on your company's payment authorisation setup.
