Robert H. Frank has been illustrating these principles longer and more clearly than anyone else. In *The Economic Naturalist's Field Guide* he reveals how they play out in Washington on Wall Street and in our own lives covering everything from healthcare to tax policy to everyday decisions about what we do with our money. In today's uncertain economic climate *The Economic Naturalist's Field Guide's* insights have more bearing than ever on our pocketbooks, policies, and personal happiness. **GM 4L80E Transmissions: How to Rebuild & Modify** Eric McClellan, 2021-05-15 Learn how to rebuild and modify the GM 4L80E transmission. As the successor to the venerable and popular Turbo Hydra-matic 400 TH400, the 4L80E was the next flag bearer in GM's line of automatic transmissions. While serving as the smaller, lighter cousin to the 4L85E, the abundance of 4L80E transmissions manufactured between 1991 and 2013 ensures that these highly capable 4-speed overdrive units will be in service for years to come. Automatic transmissions are often seen as mysterious and overly complicated, but much of the guesswork has been simplified to its basic elements in this easy-to-follow guide. This book covers the process of identifying the best versions, tearing down the 4L80E, rebuilding, reassembly, and troubleshooting. Upgrades that are available for the 4L80E, which is a popular topic among performance fans, and transmission swappers are also included. This detailed step-by-step instructional manual is authored by racer and builder Eric McClellan. Meticulous step-by-step photos of the rebuild process are featured along with torque specs and unique identification of all major and most minor components. *The Book on Bush* Eric Alterman, Mark J. Green, 2004-08-03 When George W. Bush became president in January 2001, he took office with a comfortably familiar surname, bipartisan rhetoric, and the promise of calming a public shaken by the convulsions of impeachment and a contested election. Then nine months later, after the tragedy of 9/11, both the country and the world looked to him for leadership that could unite people behind great common goals. Instead, three years into his term, George W. Bush squandered the goodwill felt toward America, turned allies into adversaries, and ran the most radical and divisive administration in the history of the presidency. *The Book on Bush* was the first comprehensive critique of a president who governed on a right-wing and a prayer. In carefully documented and vivid detail, Eric Alterman and Mark Green, two of the leading progressive authors and advocates in the country, not only trace the guiding ideology that ran through a wide range of W's policies but also expose a presidential decision-making process that, rather than weighing facts to arrive at conclusions, began with conclusions and then searched for supporting facts. *The Highlander Series 7-Book Bundle* Karen Marie Moning, 2012-04-02 With her signature blend of sensual fantasy, thrilling adventure, and breathtaking magic, Karen Marie Moning, the #1 New York Times bestselling author of such novels as *Shadowfever* and *Dreamfever*, is the reigning queen of
