Moral Hazard Juan Flores Zendejas, Norbert Gaillard, Rick Michalek, 2021-12-30 Moral Hazard is a core concept in economics In a nutshell moral hazard reflects the reduced incentive to protect against risk where an entity is or believes it will be protected from its consequences whether through an insurance arrangement or an implicit or explicit guarantee system It is fundamentally driven by information asymmetry arises in all sectors of the economy including banking medical insurance financial insurance and governmental support undermines the stability of our economic systems and has burdened taxpayers in all developed countries resulting in significant costs to the community Despite the seriousness and pervasiveness of moral

hazard policymakers and scholars have failed to address this issue This book fills this gap It covers 200 years of moral hazard from its origins in the 19th century to the bailouts announced in the aftermath of the COVID 19 outbreak The book is divided into three parts Part I deals with the ethics and other fundamental issues connected to moral hazard Part II provides historical and empirical evidence on moral hazard in international finance It examines in turn the role of the export credit industry the international lender of last resort and the IMF Finally Part III examines specific sectors such as automobile banking and the US industry at large This is the first book to provide an interdisciplinary analysis of moral hazard and explain why addressing this issue has become crucial today As such it will attract interest from scholars across different fields including economists political scientists and lawyers *Sexualised Masculinity* John Mercer, Clarissa Smith, 2025-02-10 *Sexualised Masculinity Men s Bodies in 21st Century Media Culture* explores evolving portrayals of masculinity in contemporary media focusing on the increasing eroticisation of the male body This book examines how traditional and digital media from films and television to social media platforms and fashion have transformed the ways masculinity is represented and perceived Through a wide array of case studies it highlights how male bodies are now sites of erotic value challenging long standing norms and expectations By exploring both global and local media John Mercer and Clarissa Smith provide insights into the shifting landscape of gender and sexuality offering a critical perspective on how masculinity is consumed performed and commodified in today s world This book is essential for students and scholars in fields such as gender studies media studies cultural studies and social history and is particularly relevant for those interested in understanding the intersections of masculinity media and sexuality in the 21st century Biodegradable Polymers Joanna Rydz, 2023-07-17 Studying bio degradable polymers value chain can help one understand the importance of these to the environment and human health This book provides an overview of the biodegradable polymer along the value chain identifies and analyses existing practices for biodegradable plastics and assess the relevant legal regulatory economic and practical reasons for the importance of proper use and proper recycling of biodegradable plastics It covers related materials development environmental impacts their synthesis by traditional and biotechnological routes policy and certification manufacturing processes bio degradable polymer properties and so forth Features Gives a clear idea of the present state of the art and future trends in the research of the biodegradable polymers in the context of circular economy Describes the entire value chain and life cycle of bioplastics are covered considering different types of polymers Clarifies the life safety of bio degradable polymeric materials Presents novel opportunities and ideas for developing or improving technologies Determines the course of degradation during prediction study This book is aimed at researchers graduate students and professionals in the polymer processing industry petrochemical polymer industry industry producing bio based and bio degradable polymers food packaging industry industry involved in waste management pharma industry chemical engineering product engineering and biotechnology Advances and Applications of DSMT for Information Fusion (Collected Works.

Volume 5) Florentin Smarandache, Jean Dezert, Albena Tchamova, 2023-12-27 This fifth volume on Advances and Applications of DSMT for Information Fusion collects theoretical and applied contributions of researchers working in different fields of applications and in mathematics and is available in open access. The collected contributions of this volume have either been published or presented after disseminating the fourth volume in 2015, available at fs.unm.edu/DSMTbook4.pdf or www.onera.fr/sites/default/files/297_2015_DSMT_Book4.pdf in international conferences, seminars, workshops, and journals, or they are new. The contributions of each part of this volume are chronologically ordered. First Part of this book presents some theoretical advances on DSMT dealing mainly with modified Proportional Conflict Redistribution Rules (PCR) of combination with degree of intersection coarsening techniques, interval calculus for PCR thanks to set inversion via interval analysis (SIVIA), rough set classifiers, canonical decomposition of dichotomous belief functions, fast PCR fusion, fast inter-criteria analysis with PCR and improved PCR5 and PCR6 rules preserving the quasi-neutrality of quasi-vacuous belief assignment in the fusion of sources of evidence with their Matlab codes. Because more applications of DSMT have emerged in the past years since the apparition of the fourth book of DSMT in 2015, the second part of this volume is about selected applications of DSMT mainly in building change detection, object recognition, quality of data association in tracking, perception in robotics, risk assessment for torrent protection and multi-criteria decision making, multi-modal image fusion, coarsening techniques, recommender system, levee characterization and assessment, human heading perception, trust assessment, robotics, biometrics, failure detection, GPS systems, inter-criteria analysis, group decision, human activity recognition, storm prediction, data association for autonomous vehicles, identification of maritime vessels, fusion of support vector machines (SVM), Silx, Furtif, RUST code library for information fusion including PCR rules and network for ship classification. Finally, the third part presents interesting contributions related to belief functions in general, published or presented along the years since 2015. These contributions are related with decision making under uncertainty, belief approximations, probability transformations, new distances between belief functions, non-classical multi-criteria decision making problems with belief functions, generalization of Bayes theorem, image processing, data association, entropy and cross entropy measures, fuzzy evidence numbers, negator of belief mass, human activity recognition, information fusion for breast cancer therapy, imbalanced data classification, and hybrid techniques mixing deep learning with belief functions as well. We want to thank all the contributors of this fifth volume for their research works and their interests in the development of DSMT and the belief functions. We are grateful as well to other colleagues for encouraging us to edit this fifth volume and for sharing with us several ideas and for their questions and comments on DSMT through the years. We thank the International Society of Information Fusion (www.isif.org) for diffusing main research works related to information fusion including DSMT in the international fusion conferences series over the years. Florentin Smarandache is grateful to The University of New Mexico (U.S.A.) that many times partially sponsored him to attend international conferences, workshops, and seminars on Information Fusion. Jean Dezert is grateful to the Department of

Information Processing and Systems DTIS of the French Aerospace Lab Office National d'Etudes et de Recherches Aérospatiales Palaiseau France for encouraging him to carry on this research and for its financial support Albena Tchamova is first of all grateful to Dr Jean Dezert for the opportunity to be involved during more than 20 years to follow and share his smart and beautiful visions and ideas in the development of the powerful Dezert Smarandache Theory for data fusion She is also grateful to the Institute of Information and Communication Technologies Bulgarian Academy of Sciences for sponsoring her to attend international conferences on Information Fusion
