Retracing the Iron Curtain: A 3,000-Mile Journey Through the End and Afterlife of the Cold War Timothy Phillips, 2023-03-07 Across 3 000 miles and over eight decades this epic new people s history of the Cold War makes eye opening sense of a defining 20th century conflict and how it continues to shape our world today Initially a victory line where Allies met at the end of World War Two the Iron Curtain quickly became the front of a new kind of war It divided Europe from north to south for a staggering forty five years Crossing it in either direction was always a political act in many cases it was a crime to even talk about doing so New generations have

grown up since these borders came down freed from the restrictions of the Cold War era But what has the Iron Curtain left in its wake Timothy Phillips travels its full 3 000 mile route from inside the Arctic Circle to where Armenia meets Azerbaijan and Turkey to craft this epic new people s history of a defining 20th century conflict Here in the borderlands where a powerful clash of civilizations took form in concrete and barbed wire he uncovers the remarkable stories of everyday people forever imprinted by life in the Curtain s long shadow Some look back on the era with nostalgia even affection while others despise it unable to forgive the decades of hardship their families and nations endured A director recalls the astonishing night his movie premiered in East Germany November 9 1989 the very night the Berlin Wall fell And a railroad worker recounts the 1951 hijacking of a passenger train from Czechoslovakia that breached the Curtain granting those aboard immediate asylum in the West These narratives by turns harrowing and heartening paint a vivid portrait of the new Europe that emerged from the ruins Phillips reveals the Iron Curtain s profound impact on our world today even as he punctures the fault lines we draw Publisher s note This book was published in the UK under the title *The Curtain and the Wall*

Christian Nationalism, Nation-Building, and the Making of the Holocaust in Slovakia Hana Kubátová, 2025-02-10 Previous scholarship on fascism in Slovakia has focused on either state actors operating from urban centres or the mechanisms of violence on a grassroots level with the result being that the Holocaust is seen as primarily a top down and state centred process In contrast Hana Kubátová reveals here a dynamic and unexplored centre periphery relationship and how violence against the Jewish population unfolded in both cities and the countryside and on both national and local levels As an integral component of broader nation building efforts the authority of the fascist regime and the newly founded Slovak state hinged not only on appeasing Hitler but also on civilian populations of the nation s heterogenous eastern borderlands especially local elites such as priest and teachers as well as the rural masses The book explores how this relationship was forged how it was maintained and how ultimately Christian nationalism operated as a political strategy that brought differently positioned actors together to broker deals over resources and power accrued through the co enactment of genocide by a broad coalition of perpetrators on the ground In so doing this little known chapter of Holocaust history offers a new way to understand the dynamics and escalations of mass violence and how collaborations between elite and popular groups can pave the way for ethnic cleansing across different territories and even times

Permanent Distortion Nomi Prins, 2022-10-11 A riveting expos of a permanent financial dystopia its causes and real world consequences It is abundantly clear that our world is divided into two very different economies The real one for the average worker is based on productivity and results It behaves according to traditional rules of money and economics The other doesn't It is the product of years of loose money poured by central banks into a system dominated by financial titans It is powerful enough to send stock markets higher even in the face of a global pandemic and threats of nuclear war This parting from reality has its roots in an emergency response to the financial crisis of 2008 Quantitative Easing injected a vast amount of cash into the economy especially if you were a major Wall Street bank What began as a short term dependency became a habit then a compulsion and finally an addiction Nomi Prins relentlessly exposes a world fractured by policies crafted by the largest financial institutions led by the Federal Reserve that have supercharged the financial system while selling out regular citizens and leading to social and political reckonings She uncovers a newly polarized world of the mega rich versus the never rich the winners and losers of an unprecedented distortion that can never return to normal
