Literacy, Gender, and Work Judith W. Solsken, 1993-01-01 This is the first in depth study of gender issues in early literacy learning It provides vivid portraits of the difficulties that both boys and girls experience in learning to read and write at home and in classrooms due to gendered divisions of labor in families and schools The portraits are based on data from a three year ethnographic study in which learning biographies were constructed for thirteen children from their entry into kindergarten until the completion of second grade The biographies show that in learning to read and write children construct gendered identities and negotiate their social relations with parents siblings teachers and peers Even in supportive families and progressive classrooms children face difficulties in literacy learning as a result of family and classroom practices organizing literacy on the dimensions of male female and work play The result is

often the unwitting perpetuation of traditional gender roles in families schools and the larger society This account of early literacy learning links the personal and social meaning of literacy in children s everyday lives with the larger cultural and political significance of gender The theoretical arguments and questions raised in the book challenge prevailing psychological and sociocultural models of literacy learning and set the agenda for future research on literacy and gender

Perspectives on the Holocaust R.L. Braham,2013-04-17 The number of books and articles dealing with various aspects of World War II has increased at a phenomenal rate since the end of the hostilities Perhaps no other chapter in this bloodiest of all wars has received as much attention as the Holo caust The Nazis program for the Final Solution of the Jewish Question this ideologically conceived diabolical plan for the physically liquidation of European Jewry has emerged as a subject of agonizing and intense interest to laypersons and scholars alike The centrality of the Holocaust in the study of the Third Reich and the Nazi phenomenon is almost universally recognized The source materials for many of the books published during the immediate postwar period were the notes and diaries kept by many camp and ghetto dwellers who were sustained during their unbelievable ordeal by the unusual drive to bear witness These were supplemented after the liberation by a large number of personal narratives collected from survivors all over Europe Understandably the books published shortly after the war ended were mainly martyrological and lachrymological reflecting the trauma of the Holocaust at the personal individual

level These were soon followed by a considerable number of books dealing with the moral and religious questions revolving around the role of the lay and spiritual leaders of the doomed Jewish communities especially those involved in the Jewish Councils as well as God's responsibility toward the chosen people **The Compton Yearbook** ,1968
