The National Judiciary Section 1 Quiz Key

**Cristina Fasone, Adriano Dirri, Ylenia
Guerra**

The National Judiciary Section 1 Quiz Key:

Vertical Judicial Dialogues in Asylum Cases Dana Baldinger, 2015-05-12 What do international and EU law require from the national asylum judge with regard to the intensity of judicial scrutiny to be applied and evidentiary issues To answer that question an analysis is made of the provisions on national judicial proceedings contained in the Refugee Convention RC the International Covenant on Civil and Political Rights ICCPR the UN Convention against Torture CAT the European Convention on Human Rights ECHR and the EU Charter of Fundamental Rights In addition the assessment as performed by the UN Human Rights Committee the UN Committee against Torture and the European Court of Human Rights in cases concerning the expulsion of asylum seekers is analysed **Standing to Enforce European Union Law before National Courts** Hilde K Ellingsen, 2021-03-25 Access to court has long been recognised as an essential element of a Union based on the rule of law This book asks how can Member States ensure that their rules on standing guarantee that right The book answers this question by analysing the requirements of EU law from two angles first the effective protection of Union rights second the effectiveness of Union law per se With detailed case law examination the book formulates an autonomous Union law doctrine of standing based on the principle of effective judicial protection It then goes further setting out an effectiveness test of Member States enforcement mechanisms to ensure that EU law is rendered operative in practice This is a rigorous study on a question of immense importance EU Rule of Law Procedures at the Test Bench Cristina Fasone, Adriano Dirri, Ylenia Guerra, 2024-08-21 This book analyses the EU rule of law instruments from the perspective of the academic inter and intra institutional dissensus at the EU level The angle of analysis proposed by this book allows to detect the sources of dissensus inherent in the design of the EU rule of law toolbox and in their enforcement The proliferation of the instruments without any major efforts of systematization seems to be part of the problem with a series of overlaps At the same time especially in the post pandemic context the procedures implementing the various EU rule of law tools have become more and more intertwined so that it becomes difficult to disentangle one from the other in terms of effects The book thus feeds the debate on the strengths and deficiencies of the EU rule of law toolbox ten years after the first ad hoc measures were adopted also offering some recommendations on how to turn dissensus into constructive mechanisms to improve the management of the rule of law in the EU United States Circuit Courts of Appeals Reports, 1903 **The American Digest Annotated, Key-number Series**, 1912 **Fundamental Labour Rights and the Constitution** Giulia Frosecchi, 2023-07-05 The book reflects on constitutional balancing from the perspective of fundamental labour rights It draws on neo constitutional theories and builds on the assumption that fundamental labour rights understood as rights aimed at protecting workers during their working life or after retirement are the normative expression of founding values and can be balanced against equally axiological constitutional principles The balancing of constitutional labour rights can be conducted by various institutional actors and by applying different techniques This volume reviews the theoretical debates on judicial balancing and the

approaches adopted by the Court of Justice of the European Union and the European Court of Human Rights to proceed with a closer assessment of Italian and Spanish judicial traditions In particular it addresses the main profiles of the case law of the Italian and Spanish Constitutional Courts on labour and social law reforms adopted in the aftermath of the 2008 crisis where balancing takes place between labour rights and economic principles The analysis is focused on four main aspects the fundamental labour rights in the balance the role of the Courts the technique applied by the Judges and the constitutional interests subject to the balancing It ultimately reveals that the axiological nature of fundamental labour rights is preserved and the economic and financial contingencies confirm their factual character although they are occasionally recognised a prominent role in the ratio decidendi The book will be a valuable resource for academics and researchers working in the areas of labour law social security law legal theory and constitutional law

The Coherence of EU Free Movement Law
Niamh Nic Shuibhne, 2013-08-29

At the heart of the European Union is the establishment of a European market grounded in the free movement of people goods services and capital The implementation of the free market has preoccupied European lawyers since the inception of the Union s predecessors Throughout the Union s development as obstacles to free movement have been challenged in the courts the European Court of Justice has had to expand on the internal market provisions in the founding Treaties to create a body of law determining the scope and meaning of the EU protection of free movement In doing so the Court has often taken differing approaches across the different freedoms leaving a body of law apparently lacking a coherent set of foundational principles This book presents a critical analysis of the European Courts jurisprudence on free movement examining the Court s constitutional responsibility to articulate a coherent vision of the EU internal market Through analysis of restrictions on free movement rights it argues that four main drivers are distorting the system of the case law and its claims to coherence The drivers reflect good impulses the protection of fundamental rights avoidable habits the proliferation of principles and conflicting lines of case law authority inherent ambiguities the unsettled purpose and objectives of the internal market and broader systemic conditions the structure of the Court and its decision making processes These dynamics cause problematic instances of case law fragmentation which has substantive implications for citizens businesses and Member States participating in the internal market as well as reputational consequences for the Court of Justice and for the EU more generally However ultimately the Member States must take greater responsibility too only they can ensure that the Court of Justice is properly structured and supported enabling it to play its critical institutional part in the complex narrative of EU integration Examining the judicial development of principles that define the scope of EU free movement law this book argues that sustaining case law coherence is a vital constitutional responsibility of the Court of Justice The idea of constitutional responsibility draws from the nature of the duties that a higher court owes to a constitutional text and to constitutional subjects It is based on values of fairness integrity and imagination A paradigm of case law coherence is less rigid and therefore more realistic than a benchmark of legal certainty But it still takes seriously

the Court's obligations as a high level judicial institution bound by the rule of law Judges can legitimately be expected and obliged to be aware of the public legal resource that they construct through the evolution of case law *Advanced Freedom of Information Act Seminar*, 1984 **American Patent System** United States.
