The Path Forward Rethinking Federal Marijuana Policy:

The Path Forward Rep. Earl Blumenauer, Rep. Jared Polis, United States Representative Office, 2014-11-06 After decades of failed policies and tremors of varying intensity the tectonic plates of marijuana regulation abruptly shifted November 2012 as the citizens of Washington and Colorado voted to legalize the drug for personal recreational use Smaller earlier quakes first began in Oregon in 1973 when the state legislature passed legislation that made the penalty for possession of small amounts of marijuana equivalent to that of a traffic ticket In the 40 years that followed 15 jurisdictions have developed similar policies The next upheaval was the legalization of medical marijuana by states starting with California in 1996 The therapeutic qualities of marijuana have since proved persuasive in states across the political spectrum The movement to allow medical marijuana has gained more momentum and legitimacy with a total of 18 states and the District of Columbia currently allowing this application **A New Leaf** Alyson Martin, Nushin Rashidian, 2015-02-03 Two award winning journalists offer a cogent well sourced and ambitious analysis of the slow decline of cannabis prohibition in the United States Kirkus Reviews In November 2012 voters in Colorado and Washington passed landmark measures to legalize the production and sale of cannabis for social use a first in the United States and the world Once vilified as a gateway drug cannabis is now legal for medical use in eighteen states and Washington DC Yet the federal government refuses to acknowledge these broader societal shifts 49.5 percent of all drug related arrests involve the sale manufacture or possession of cannabis In the first book to explore the new landscape of cannabis in the United States investigative journalists Alyson Martin and Nushin Rashidian demonstrate how recent cultural and legal developments tie into cannabis's complex history and thorny politics Reporting from nearly every state with a medical cannabis law Martin and Rashidian interview patients growers doctors entrepreneurs politicians activists and regulators A New Leaf moves from the federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon's World Famous Cannabis Caf The result is a lucid account of how cannabis legalization is changing the lives of millions of Americans and easing the burden of the war on drugs both domestically and internationally God on High Laurie Cozad, 2018-06-20 God on High examines cannabis based religious groups in Canada and the United States These religious groups are on the rise as cannabis use is further decriminalized or legalized In examining these groups Laurie Cozad explores the triangular relationships between cannabis religion and the law and the ways in which the shifting discourse of medical science impacts this trio **Public Health and Society: Current Issues** Lillian D. Burke, Barbara Weill, 2023-03-20 Public Health and Society Current Issues analyzes current public health issues in a historical context while relating them to individual lives The text emphasizes the social determinants of health social justice and the climate crisis by leading off with these important topics and then integrates them where appropriate throughout the text Subsequent chapters explore gun violence the opioid epidemic tobacco vaping and alcohol use COVID 19 mental health environmental health

chronic disease emerging and reemerging diseases and more Key features In the News articles bring public health topics up to date and underscore their modern relevance Personal vignettes humanize public health issues and make them resonate for readers Short histories put current issues into historical context for example the opioid epidemic Ch 5 and alcohol and tobacco use Ch 6 Comprehensive and up to date data and references are included throughout the text Navigate eBook acc

Mallinson,A. Lee Hannah,2024-07-16 A state by state analysis of the expansion of medical marijuana access in the United States As of 2023 thirty eight states and the District of Columbia have legalized the medical use of marijuana Twenty three have legalized recreational use supporting what is now a flourishing multibillion dollar industry In Green Rush Daniel J Mallinson and A Lee Hannah offer a fascinating history of cannabis legalization in America highlighting the people states and policies that made these victories possible With sharp insight Mallinson and Hannah explore the backdrop to this sea change in policy including shifts in public opinion growing opposition to the War on Drugs the promise of new revenue streams and more They examine the complex web of state actors and the steps they took to chart a path forward for marijuana legalization from grassroots activists and interest groups to elected officials and other key policymakers Mallinson and Hannah show us how states like Pennsylvania Ohio and West Virginia not only created legitimized and spread medical marijuana policy but also learned from each other s successes and failures throughout the process As marijuana legalization increasingly finds its way onto state ballots Green Rush offers fresh insight into how we got here as a country and where we are going one state at a time **The Marijuana Policy Gap and the Path Forward** ,2017

Reconsidering Federal Marijuana Regulation: Allowing States to Regulate Marijuana Without Interference Tina Marie Lack,2015 Currently marijuana is regulated by the federal government through the Controlled Substances Act which criminalizes the production distribution and possession of marijuana States are expected to comply with the Act but many states have passed their own laws legalizing marijuana either for medical or recreational purposes The federal government continues to criminalize marijuana even though there is increasing support for marijuana legalization Drawing on an account of the justification for a federal system of government and of key provisions in the Constitution I will argue that marijuana regulation should be left to the states and that the federal government should not be involved in the regulation of marijuana In the Weeds Clayton J. Mosher,Scott Atkins,2019-02-25 More and more states are legalizing marijuana in some form Moreover a majority of the U S population is in favor of the drug for recreational use In the Weeds looks at how our society has become more permissive in the past 150 years even though marijuana is still considered a Schedule I drug by the

American government Sociologists Clayton Mosher and Scott Akins take a deep dive into marijuana policy reform looking at the incremental developments and the historical legal social and political implications of these changes They investigate the effects medicinal applications and possible harms of marijuana In the Weeds also considers arguments that youth will be heavy users of legalized cannabis and shows how weed is demonized by exaggerations of the drug s risks and claims of its lack of medicinal value Mosher and Akins end their timely and insightful book by tracing the distinct paths to the legalization of recreational marijuana in the United States and other countries as well as discussing what the future of marijuana law holds

Marijuana 360 Nancy E. Marion,Joshua B. Hill,2019-05-08 In 1996 California became the first state to legalize medical marijuana Since then 30 states and the District of Columbia have passed laws legalizing marijuana in some form Nine of those states including Alaska Oregon Colorado and Washington have legalized marijuana for recreational use Many states including Arizona and Ohio are considering legislation to allow for legalized cannabis use Marijuana 360 Differing Perspectives on Legalization examines the perception of marijuana legalization from the perspective of those who are directly involved in some aspect of legal marijuana Nancy E Marion and Joshua B Hill interweaves the interviews from a variety of representatives from different integral groups that have been affected by marijuana legalization in both states that have legalized or are considering the legalization of marijuana to get their impressions of the impact the law has made or will make in their area These groups include medical professionals educators parents lawmakers drug users and others There is more public support for reform than ever before but still much debate over the issues of legalizing marijuana Marijuana 360 increases our understanding of what different professionals think about the legalization of marijuana

A New Leaf Alyson Martin,Nushin Rashidian,2014-02-04 In November 2012 voters in Colorado and Washington passed landmark measures to legalize the production and sale of cannabis for social use a first not only in the United States but also the world Medical cannabis is now legal in twenty states and Washington D C and more than one million Americans have turned to it in place of conventional pharmaceuticals Yet the federal government refuses to acknowledge these broader societal shifts and continues to raid and arrest people 49 5 percent of all drug related arrests involve the sale manufacture or possession of cannabis In the first book to explore the new landscape of cannabis in the United States investigative journalists Alyson Martin and Nushin Rashidian present a deeply researched insightful story of how recent developments tie into cannabis s complex history and thorny politics Reporting from nearly every state with a medical cannabis law Martin and Rashidian enliven their book with in depth interviews with patients growers doctors entrepreneurs politicians activists and regulators They whisk readers from the federal cannabis farm at the University of Mississippi to the headquarters of the ACLU to Oregon s World Famous Cannabis Caf They present an expert analysis of how recent milestones toward legalization will affect the war on drugs both domestically and internationally The result is an unprecedented and lucid account of how legalization is manifesting itself in the lives of millions A New Leaf offers an essential guide for anyone who wants to understand the far

ranging implications of this rapidly changing drug landscape Rethinking Cannabis Legislation: Insights from Advocacy Groups Christopher Hunter Tramel, 2018-05-13 Prohibition and regulation of substances in the United States transformed throughout the 20th century namely through the Pure Food and Drug Act the prohibition of alcohol the Marihuana Tax Stamp Act and the Controlled Substances Act with each further expanding the amount of substances regulated and the consequences of breaking the regulations The first chapter will briefly outline major events and legislation from 1937 to the present day and how such events and legislation set the stage for grassroots initiatives on the state level seeking to take advantage of the medicinal properties of Cannabis sativa and its impact on relative incarceration rates throughout the era The second chapter investigates the three qualifiers necessary to be classified as a Schedule I controlled substance and challenges such with the findings of federal commissions patents and programs similar medicines and the surge in state level acceptance as well as public support for the medicinal use of Cannabis sativa The lack of settling of the Schedule I classification with regards to Cannabis sativa in the face of such legitimate findings has created an environment possibly violating provisions of the Fourth Fifth Eighth Ninth Tenth and Fourteenth Amendments of the United States Constitution Finally this thesis will critically approximate the economic impact of the Schedule I classification of Cannabis sativa from the commencement of the Shafer Commission in 1972 to the present day Such historic social and economic impacts around the War on Cannabis sativa are grounds proving the legitimacy of the movement of cannabis law reform seen in the modern landscape of the United States Likewise such findings should act as evidence that the Schedule I classification of such is unconstitutional unethical and thwarted medical progressivism freedom of choice and treatment of fellow Americans since 1937
