Firsts and Lasts Laura Silverman,2023-09-26 An exciting fiction YA anthology that celebrates the new experiences and final moments teenagers face on their journey into adulthood from editor Laura Silverman and a cast of spectacular contributors From first breakups and romantic vampire encounters to last band performances and the deadly end of a friendship Firsts and Lasts is an anthology that is just as unpredictable as being a teenager While each of these stories span different genres and styles they all perfectly capture the big emotions confusion joy uneasiness and anticipation that many teens experience as they grow up Whether you are hopelessly in love and not sure how to tell your crush going through loss and can t fully process it or just trying to figure out where you belong in the world this collection of sixteen stories has something for every reader Stories written by Adi Alsaid Keah Brown Monica Gomez Hira Kika Hatzopoulou Shaun David Hutchinson Amanda Joy Loan Le Joy McCullough Yamile Saied M ndez Anna Meriano Nina Moreno Tess Sharpe Laura Silverman Rachel Lynn Solomon Diana Urban and Julian Winters **Organizing Global Technology Flows** Pierre-Yves

Donzé,Shigehiro Nishimura,2013-11-12 Research on the international transfer of technology in economics and management literature has primarily focused on the role of countries and that of companies in particular multinational enterprises MNEs Similarly economic and business historians have tended to view international technology transfer as a way for economically backward countries to acquire new technologies in order to catch up with more developed economies This volume provides a more in depth understanding of how the international transfer of technologies is organized and in particular challenges the core periphery model that is still dominant in the extant literature By looking beyond national systems of innovation and statistics on foreign trade patent registration and foreign direct investment the book sheds more light on the variety of actors

involved in the transfer process including engineers entrepreneurs governments public bodies firms etc and on how they make use of a broad set of national and international institutions facilitating technology transfer Put differently the volume offers a better understanding of the complexity of global technology flows by examining the role and actions of the different actors involved By bringing together a number of original case studies covering many different countries over the period from the late 19th to the 21st century the book demonstrates how technology is being transferred through complex processes involving a variety of actors from several countries using the national and international institutional frameworks **Torque** ,2007-12 Singapore s best homegrown car magazine with an editorial dream team driving it We fuel the need for speed

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and suspenseful novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
