The Mydas Touch:

The Mydas Touch Robert Lay, 2014-12-10 Once upon a time at a far far away Historically Black College named Chi an University there was a young man named Davia Richardson Davia Da V A Richardson a handsome black male from the city of Philadelphia was the cream of the crop at Chi an University Like a King with his subjects Davia also known as D was well respected and adored by his peers for his down to earth personality his good grades physically fit exterior and his ability to become successful in any area in his life he focused on except for relationships While away from Philadelphia for school Davia leaves the love his life to pursue higher education before being corrupted by the new found attention he was receiving from the women at Chi an Spiraling down this rabbit hole into a sexual rampage Davia becomes trapped within his one internal conflict between the sexual predator that he quickly became known as and his hometown love interest while also balancing his moral and religious beliefs However while digging a deeper hole for his self during his internal battles and sexual escapades Davia runs into a woman named Trischa a independent woman from Pittsburgh who is more than he can handle not only in bed but also emotionally Bodies and emotions flair before Davia unexpectedly begins to fall her Things get even more complicated when Davia s battle between his awakened sexual nature and love life switch to now having to choose between the woman he is now falling for and his high school sweet heart whom has been patiently waiting to finally start a relationship with him Feelings and bodies clash while emotions sizzle during Davia s desperate attempt to live happily ever after by understanding who he is and what woman he wants to be with In my modern version of the mythical story The Midas Touch filled poetry religion humor and sex the main character doesn t only lose the one he loves because of his greed but also gives women a deeper look into the complicated psyche of the male species and men some to dos and not to dos when dealing with the opposite sex Robert W Lay II author of *The Mydas Touch* *Later Middle English Literature, Materiality, and Culture* Brian Gastle, Erick Kelemen, 2018-04-12 The essays in this volume consider the ways in which material and intellectual culture both shaped and were shaped by the literature of late medieval England The first section Textual Material reflects on cultural and social issues generally referred to as the History of Ideas and how those ideas manifest in later medieval English texts Essays address for example affect in The Book of Margery Kempe rhetoric in Sir Gawain and the Green Knight anarchy in late medieval political texts and temporality in Gower s Confessio Amantis The essays in the second section Material Texts examine physical objects from pilgrim badges to manuscripts to money to early printed editions and the cultural behaviors associated with them interpreting these objects and exploring their connections to the important literary and political texts of the age such as Piers Plowman Lydgate s Troy Book and Chaucer s Canterbury Tales All of the essays in this collection emerge from the relationships and connections between the issues that characterize Jim Dean s work the cultural material and aesthetic aspects of later medieval English literature So too do they reflect a movement in medieval literary studies presaged by Dean s career of scholarship and teaching that critical approaches to literary texts are best

undertaken with an understanding of the complex cultural and historical milieu that defines both the production of those texts and the production of our own work on those texts

The Plays of John Lyly Michael Pincombe, 1996 John Lyly Shakespeare's forerunner in English comedy wrote eight highly individual plays This study of the plays with each chapter devoted to a different play concentrates on the courtly aspects of Lyly's work he wrote all but one of his plays for court performance In particular it examines the relationship of Lylian drama to royal panegyric a kind of writing which he did much to establish However the plays also present a parody of panegyric and thus might also be said to have a counter courtly aspect
