The National Interest September October 2012 121:

The Obama Doctrine Colin Dueck, 2015-04-01 By mid 2015 the Obama presidency will be entering its final stages and the race among the successors in both parties will be well underway And while experts have already formed a provisional understanding of the Obama administration's foreign policy goals the shape of the Obama Doctrine is finally coming into full view It has been consistently cautious since Obama was inaugurated in 2009 but recent events in the Middle East Eastern Europe and the Far East have led an increasingly large number of foreign policy experts to conclude that caution has transformed into weakness In The Obama Doctrine Colin Dueck analyzes and explains what the Obama Doctrine in foreign policy actually is and maps out the competing visions on offer from the Republican Party Dueck a leading scholar of US foreign policy contends it is now becoming clear that Obama's policy of international retrenchment is in large part a function of his emphasis on achieving domestic policy goals There have been some successes in the approach but there have also been costs For instance much of the world no longer trusts the US to exert its will in international politics and America's adversaries overseas have asserted themselves with increasing frequency The Republican Party will target these perceived weaknesses in the 2016 presidential campaign and develop competing counter doctrines in the process Dueck explains that within the Republican Party there are two basic impulses vying with each other neo isolationism and forceful internationalism Dueck subdivides each impulse into the specific agenda of the various factions within the party Tea Party nationalism neoconservatism conservative internationalism and neo isolationism He favors a realistic but forceful US internationalism and sees the willingness to disengage from the world by some elements of the party as dangerous After dissecting the various strands he articulates an agenda of forward leaning American realism that is a policy in which the US engages with the world and is willing to use threats of force for realist ends The Obama Doctrine not only provides a sharp appraisal of foreign policy in the Obama era it lays out an alternative approach to marshaling American power that will help shape the foreign policy debate in the run up to the 2016 elections

Maxwell's Demon and the Golden Apple Randall L. Schweller, 2014-05 Mixing myth entropy and Angry Birds Randall Schweller brings a novel perspective to international studies Just what exactly will follow the American century This is the question Randall L Schweller explores in his provocative assessment of international politics in the twenty first century Schweller considers the future of world politics correlating our reliance on technology and our multitasking distracted disorganized lives with a fragmenting world order He combines the Greek myth of the Golden Apple of Discord which explains the start of the Trojan War with a look at the second law of thermodynamics or entropy In the coming age Schweller writes disorder will reign supreme as the world succumbs to entropy an irreversible process of disorganization that governs the direction of all physical changes taking place in the universe Interweaving his theory of global disorder with issues on the world stage coupled with a disquisition on board games and the cell phone app Angry Birds Schweller's thesis yields astonishing insights Maxwell's Demon and the Golden

Putin's Propaganda Machine Marcel H. Van Herpen, 2015-10-01 Putin's Propaganda Machine examines Russia's information war one of the most striking features of its intervention in Ukraine Marcel H Van Herpen argues that the Kremlin's propaganda offensive is a carefully prepared strategy implemented and tested over the last decade Initially intended as a tool to enhance Russia's soft power it quickly developed into one of the main instruments of Russia's new imperialism reminiscent of the height of the Cold War The author describes a multifaceted strategy that makes use of diverse instruments including mimicking Western public diplomacy initiatives hiring Western public relations firms setting up front organizations buying Western media outlets financing political parties organizing a worldwide propaganda offensive through the Kremlin's cable network RT and publishing paid supplements in leading Western newspapers In this information war key roles are assigned to the Russian diaspora and the Russian Orthodox Church the latter focused on spreading so called traditional values and attacking universal human rights and Western democracy in international fora Van Herpen demonstrates that the Kremlin's propaganda machine not only plays a central role in its hybrid war in Ukraine but also has broader international objectives targeting in particular Europe's two leading countries France and Germany with the goal of forming a geopolitical triangle consisting of a Moscow Berlin Paris axis intended to roll back the influence of NATO and the United States in Europe Drawing on years of research Van Herpen shows how the Kremlin has built an array of soft power instruments and transformed them into effective weapons in a new information war with the West

Egypt Azmi Bishara, 2022-07-14 Azmi Bishara's seminal study of the 2011 Egyptian Revolution chronicles in granular detail the lead up to the momentous uprisings and the subsequent transition and coup The book critically investigates the social and economic conditions that formed the backdrop to the revolution and the complex challenges posed by the transition from authoritarianism to democracy Part One From July Coup to January Revolution goes back to what is called the

1952 revolution or the 1952 Coup d'état and traces events until 2011 when Hosni Mubarak stepped down as the president of Egypt after weeks of protest. It highlights the relationship between the presidency and the army to show that contrary to popular belief the presidency grew gradually stronger at the expense of other institutions especially the army and reached its apogee under Mubarak. Part Two From Revolution to Coup d'Etat covers the critical stages from when the military junta took over the governing of Egypt as the Supreme Council of the Armed Forces (SCAF) and the election of Morsi up until the coup to overthrow his presidency. Using a democratic transition theory perspective Azmi Bishara explains the failure of the democratic transition and how it has impacted on Arab revolutions ever since. Written while the revolutions were taking place this book conveys a sense of immediacy and urgency as Bishara makes wide ranging assessments with many of his forecasts corroborated in later years. The book is renowned for its use of primary source material including interviews, statistics and public opinion polls thus preserving the memory of the revolution and remaining one of the most comprehensive reference books on the subject to date.

Strategic Thinking, Deterrence and the US Ballistic Missile Defense Project Reuben Steff, 2016-04-01. A systematic critical survey of American strategic thinking and the strategic culture in which it is formed. In particular this book seeks to interrogate the theory and strategy of nuclear deterrence and its relationship to the concept of missile defence. Drawing widely on the theoretical literature in international relations and strategic studies it identifies the key groups that have competed over America's nuclear policy post 1945 and examines how the concept of missile defence went through a process of gestation and intellectual contestation leading to its eventual legitimization in the late 1990s. Steff sheds light on the individuals, groups, institutions and processes that led to the decision by the Bush administration to deploy a national missile defence shield. Additionally Steff systematically examines the impact deployment had on the calculations of Russia and China. In the process he explains that their reactions under the Bush administration have continued into the Obama era revealing that a new great power security dilemma has broken out. This Steff shows has led to a decline in great power relations as a consequence.

India and the Responsibility to Protect Alan Bloomfield, 2017-07-28. Bloomfield charts India's profoundly ambiguous engagement with the thorny problem of protecting vulnerable persons from atrocities without fatally undermining the sovereign state system, a matter which is now substantially shaped by debates about the responsibility to protect (R2P) norm. Books about India's evolving role in world affairs and about R2P have proliferated recently but this is the first to draw these two debates together. It examines India's historical responses to humanitarian crises starting with the 1971 Bangladesh Liberation War concentrating on the years 2011 and 2012 when India sat on the UN Security Council. Three serious humanitarian crises broke during its tenure in Côte d'Ivoire, Libya and Syria which collectively sparked a ferocious debate within India. The book examines what became largely a battle over what sort of actor modern India is or should be to determine how this contest shaped both India's responses to these humanitarian tragedies and also the wider debates about rising India's international identity. The book's findings also have important and largely negative

implications for the broader effort to make R2P a recognised and actionable international norm **European Defence Cooperation in EU Law and IR Theory** T. Dyson, 2013-05-07 This book offers a novel contribution to the study of post Cold War European defence Interdisciplinary in approach it uses European law to assess the utility of existing theoretical accounts By exploring the balance of threat theory it provides new insights into the forces driving and hindering European defence cooperation **The Arab Spring and Arab Thaw** John Davis, 2016-04-01 What were the unifying principles or strategies that governed the protest movements that swept the Middle East and North Africa in the spring of 2011 Who were the protestors and how did the different authoritarian regimes respond to them How did regional and international institutions react to a region in turmoil The Arab Spring and Arab Thaw Unfinished Revolutions and the Quest for Democracy addresses these questions by examining a range of successful and unsuccessful protest strategies and counter revolutionary tactics employed by protestors and autocratic regimes Contributors explore the reactions of the USA EU and Arab League to events in the region and provide insight as to the gendered dimensions of the struggle along with the ethnic and tribal divisions that continue to impact the post revolt period By addressing these critical queries the book demonstrate how the Arab Spring has evolved into a protracted Arab Thaw that continues to profoundly affect regional and international politics *The National Interest in Question* Christopher Hill, 2013-08-22 This volume examines the interaction between foreign policy making and multicultural societies It analyses the challenges of rapid social change associated with inward migration and increased ethnic and cultural diversity in ten EU Member States North American Integration Gaspare M. Genna, David A. Mayer-Foulkes, 2013-07-18 The course of events since the implementation of NAFTA has had unexpected elements with significant impacts on North American integration First has been the rise of China as a larger source of imports and production partner than Mexico Second has been the rise of security concerns since September 11 2001 The result has been much stronger integration between Canada and the US than with Mexico Migration issues are now linked with security which has risen to a top priority in the international agenda While liberalization has furnished strong economic incentives for integration it has not provided a sufficient guide for the political process which requires leadership and appropriate institutions to coordinate and regulate the special interest groups A coherent and effective North American integration would be a valuable asset in the context of global integration and competition yet the issues involved are quite complex and varied North American Integration An Institutional Void in Migration Security and Development examines the current state of North American integration Editors Gaspare M Genna and David A Mayer Foulkes gather an international group of experts to give a broad coherent picture of the current multifaceted process of integration and find that institutional development is an essential component Divided into three sections the book Discuss the determinants of integration and shows that the institutional characteristics of the three countries including democracy and basic rights are the most important Provides examples of institutional building in contexts for which institutions are lacking specifically labor migration and health issues

Examines issues such as overall security arrangements trade drug related violence energy and the continuing wage gap among the countries which have an important bearing on integration The NPPF Handbook Gregory Jones KC, Simon Neate, 2025-09-04 Promising 1.5 million new homes by 2029 the new Labour government has made increased house building a central part of its growth agenda The National Planning Policy Framework NPPF is key to securing that If you really want to understand English planning policy and whether it is likely to achieve a better supply of homes economic growth less ugly more functional and higher quality places better health and well being and more biodiversity this Handbook will be invaluable In clear language it examines the meaning of the NPPF in a comprehensive and systematic way by reference to case law and appeal decisions The Handbook provides practical guidance on whether a policy paragraph has changed in substance or just its numbering Users will be able to assess whether previous authorities are still relevant Expertly co edited by Gregory Jones KC and Simon Neate MRTPI the book provides a unique commentary from a blended team of experienced specialist planning barristers from the leading planning chambers of Francis Taylor Building and planning transport and economics consultants from the international professional services firm WSP This definitive single volume guide to the NPPF will be essential reading for legal practitioners and professionals working in the field of planning International Business S. Tamer Cavusgil, Gary Knight, John R. Riesenberger, Hussain G. Rammal, Elizabeth L. Rose, 2014-08-01 The accelerating cross border flow of products services capital ideas technology and people is driving businesses large and small to internationalise International Business 2nd Australasian edition the New Realities is a rigorous resource which prepares future managers to operate successfully in multinational settings Case studies from a wide variety of markets relevant to Australasian business including ASEAN countries as well as China India Japan South Korea Pakistan Europe and the Middle East provide a real world perspective to theories and examine the latest trends in international business The second edition of International Business features 10 new in depth case studies specially created for this edition For undergraduate students majoring in international business or post graduate courses in international business US-China Relations in the Twenty-First Century Michael Tai, 2015-04-24 The relationship between the United States and China will be of critical importance to the world throughout the twenty first century In the West China's rise is often portrayed as a threat and China seen in negative terms This book explores the dynamics of this crucial relationship It looks in particular at what causes an international relationship to be perceived negatively and considers what can be done to reverse this arguing that trust is a key factor It goes on to discuss US and Chinese rhetoric and behaviour in three key areas climate change finance and international security The book contends that contrary to much US rhetoric China's actions in these areas is often much more flexible and accommodating than the US position and that the Chinese are much more knowledgeable about and understanding and appreciative of the United States than vice versa **The Commercial and Financial Chronicle**, 1909
The Double Crisis of the Welfare State and What We Can Do About It P. Taylor-Gooby, 2013-04-10 This book analyses the

immediate challenges from headlong cuts root and branch restructuring and the longer term pressures from population ageing It demonstrates that a more humane and generous welfare state that will build social inclusiveness is possible and shows how it can be achieved

The Pivot Kurt Campbell,2025-05-01 From former assistant secretary of state Kurt M Campbell comes the definitive analysis and explanation of the new major shift in American foreign policy its interests and assets to Asia There is a quiet drama playing out in American foreign policy far from the dark contours of upheaval in the Middle East and South Asia and the hovering drone attacks of the war on terror The United States is in the midst of a substantial and long term national project which is proceeding in fits and starts to reorient its foreign policy to the East The central tenet of this policy shift aka the Pivot is that the United States will need to do more with and in the Asia Pacific hemisphere to help revitalize its own economy to realize the full potential of the region s dramatic innovation and to keep the peace in the world s most dynamic region where the lion s share of the history of the twenty first century will be written This book is about a necessary course correction for American diplomacy commercial engagement and military innovation during a time of unrelenting and largely unrewarding conflict While the United States has intensified its focus on the Asia Pacific arena relative to previous administrations much more remains to be done The Pivot is about that future It explores how the United States should construct a strategy that will position it to maneuver across the East and offers a clarion call for cunning dexterity and ingenuity in the period ahead for American statecraft in the Asia Pacific region

Great Power Strategies - The United States, China and Japan Quansheng Zhao,2022-09-05 This book provides a comparative study of the strategies of great powers in the Asia Pacific namely the United States China and Japan known as the Pacific Three It examines the evolution of each power s strategic thinking and analyzes the three powers respective foreign policies and internal debates in the policymaking process It analyzes the three countries conflict and cooperation from past to the present It stresses the importance of the interactions between internal and external factors in the policymaking process and emphasizes the great significance of these interactions for international relations theory For example it highlights the role of strategic advisers in think tanks and government agencies in the United States Japan s informal and balanced policymaking process and the impact of traditional culture in China especially Confucianism and the part played by Chinese think tanks

Ocean Governance, Regimes, and the South China Sea Issues Peter Kien-hong YU,2015-05-05 This book uses Chinese version of dialectics to present interpretations of ocean governance international regimes issues in the South China Sea in general and the Chinese U shaped line in particular through the one dot theory It especially serves as a tool for non Chinese researchers and experts interested in analyzing international relations issues from a Chinese perspective The dialectical one dot theory which is a superior model to the dialectical Yin and Yang or the dialectical crab and frog motion model provides research and findings that more closely mirror reality than do other non dialectical approaches and research methods Further it can be applied to both the natural and social sciences The book is divided into three parts Methodology

Case Studies Related to International Regimes and Non International Regimes and Issues Related to the U shaped Line in the South China Sea with each chapter structured in terms of the one dot theory In addition to researchers and experts involved in marine and maritime affairs this book will also appeal to all readers interested in Chinese Philosophy International Relations and Strategic Culture
