Literature 1987, Part 1 S. Böhme, U. Esser, H. Hefele, I. Heinrich, W. Hofmann, D. Krahn, V. R. Matas, L. D. Schmadel, G. Zech, 2013-11-11 Astronomy and Astrophysics Abstracts aims to present a comprehensive documentation of the literature concerning all aspects of astronomy, astrophysics and their border fields. It is devoted to the recording, summarizing and indexing of the relevant publications throughout the world. Astronomy and Astrophysics Abstracts is prepared by a special department of the Astronomisches Rechen Institut under the auspices of the International Astronomical Union. Volume 43 records literature published in 1987 and received before August 15 1987. Some older documents which we received late and which are not surveyed in earlier volumes are included too. We acknowledge with thanks contributions of our colleagues all over the world. We also express our gratitude to all organizations, observatories and publishers which provide us with complimentary copies of their publications. Starting with Volume 33 all the recording, correction and data processing work was done by means of computers. The recording was done by our technical staff members: Ms Helga Ballmann, Ms Beate Gobel, Ms Monika Kohl, Ms Sylvia Matyssek, Ms Doris Schmitz, Braunstein, Ms Utta Barbara Stegemann, Mr Jochen Heidt and Mr Kristopher Polzine supported our task by careful proof reading. It is a pleasure to thank them all for their encouragement. Heidelberg, October 1987.

Goethe in English Derek Glass, Martin H. Jones, 2005. This bibliography was commissioned by the English Goethe Society as a contribution to the celebration in 1999 of

the 250th anniversary of Goethe's birth. It sets out to record translations of his works into English that have been published in the twentieth century up to and including material published in that anniversary year. It aims to serve as wide a constituency as possible, be it as a simple reference tool for tracing a translation of a given work or as a documentary source for specialized studies of Goethe's reception in the English-speaking world. The work records publications during the century, not merely translations that originated during this period. It includes numerous reprintings of older material as well as some belated first publications of translations from the nineteenth century. It shows how frequent and how long enduring was the recourse of publishers and anthologists to a Goethe Victorian in diction, a signal factor in perceptions and misperceptions. Derek Glass was putting the finishing touches to the bibliography at the time of his sudden death in March 2004. Colleagues at Kings College London have edited the final manuscript, which is now published jointly by the English Goethe Society and the Modern Humanities Research Association, both as a worthy commemoration of Goethe's anniversary and as a tribute to Derek himself.

Overcoming the Threat to Our Future David Anderson, 2018-10-04 This is a book about the social, political, philosophical, religious, and economic presuppositions we have believed to be inherent truths that we are now discovering were built on geo-ecological flaws. We are being faced with an existential threat. There is the possibility of human extinction. And unlike threats in the past to all forms of life on the planet, this one will not be determined by a random meteorite, asteroid, or natural planetary happening. It will be self-inflicted. We are that species. Where have we all gone wrong? Could it be that certain elements in our thought process, laboriously pieced together from the beginning of our bronze/iron agricultural age, are now working against us? And if so, what are those elements? Finally, the question is: How could we, the most clever and brilliant primate ever to evolve, be bringing this on ourselves? Is it that we have an evolutionary self-destructive, neurotic, psychotic, cranial imperfection? And if this is the reason, at what stage of our evolution did that imperfection occur? Finally, do you and I, biologically, psychologically, neurologically, have the ability to move away from that imperfection?

Lange's Commentary on the Holy Scripture, Volume 1 Lange, John Peter, All sixty-three of the original volumes are included in a nine-volume set. There are two linked indexes in this volume: a main index at the front of this volume that will take you to the beginning of each of the books of the Bible, and another index at the beginning of each book where there is a linked scripture index leading to the particular subject. Lange's Commentary on the Old and New Testaments, translated, revised, edited, and enlarged from the German editions of John Peter Lange and many contributors, and edited by Philip Schaff. Lange's Commentary on the entire Bible has remained one of the most useful and valuable works of its kind. It is conservative in theology and universal in hermeneutics. Delmarva Publications is proud to make it available in digital format. The original work was completed in 63 volumes, but we have made it available in 9 volumes: Volume 1: Genesis to Ruth; Volume 2: 1 Samuel to Esther; Volume 3: Job to Ecclesiastes; Volume 4: Song of Songs to Lamentations; Volume 5: Ezekiel to Malachi; Volume

Operas in German: A Dictionary Margaret Ross

Griffel, 2018-01-23 With nearly three thousand new entries the revised edition of *Operas in German: A Dictionary* is the most current encyclopedic treatment of operas written specifically to a German text from the seventeenth century through 2016. Musicologist Margaret Ross Griffel details the operas, composers, scores, librettos, first performances, and bibliographic sources. Four appendixes then list composers, librettists, authors whose works inspired or were adapted for the opera librettos, and a chronological listing of the entries in the A-Z section. The bibliography details other dictionaries and encyclopedias, performance studies, collections of plot summaries, general studies on operas, sources on locales where opera premieres took place, works on the history of operas in German, and selective volumes on individual opera composers, librettists, producers, directors, and designers. Finally, two indexes list the main characters in each opera and the names of singers, conductors, producers, composers, directors, choreographers, and arrangers. The revised edition of *Operas in German* provides opera historians, musicologists, performers, and opera lovers with an invaluable resource for continued study and enjoyment.
