The Neighbors Secret English Edition:

Varieties of Antisemitism Murray Baumgarten, Peter Kenez, Bruce Allan Thompson, 2009 The essays in this volume articulate the historical ground on which this artistic exploration of the Holocaust and anti-Semitism depends. They also elaborate the spectrum that connects them in terms of their historical location and ideological emphases and thus suggest the ways in which they are connected in terms of rhetorical discourse. The essays are governed by the sense that anti-Semitism has not been a unitary experience or event. Rather, it is its varieties that are explored, exactly those aspects that have made it so difficult to grasp and that led to the wide-ranging events and murdering methods of the Holocaust. Thus the editors eschew the causal explanation of Hitler's Willing Executioners as they seek to provide more nuanced understanding. Murray Baumgarten directs the Jewish Studies program at the University of California Santa Cruz. Peter Kenez teaches at the University of California Santa Cruz. Bruce Thompson is a lecturer in History and Literature at the University of California Santa Cruz.

Everyday Magic in Early Modern Europe Kathryn A. Edwards, 2016-03-09 While pre-modern Europe is often seen as having an enchanted or magical worldview, the full implications of such labels remain inconsistently explored. Witchcraft, demonology, and debates over pious practices have provided the main avenues for treating those themes, but integrating them with other activities and ideas seen as forming an enchanted Europe has proven to be a much more difficult task. This collection offers one method of demystifying this world of everyday magic. Integrating case studies and more theoretical responses to the magical and preternatural, the authors here demonstrate that what we think of as extraordinary was often accepted as legitimate if unusual occurrences or practices. In their treatment of and attitudes towards spirit-assisted treasure hunting, magical recipes, trials for sanctity, and visits by guardian angels, early modern Europeans showed more acceptance of and comfort with the extraordinary than modern scholars frequently acknowledge. Even witchcraft could be more pervasive and less threatening than many modern interpretations suggest. Magic was both mundane and mysterious in early modern Europe, and the witches who practiced it could in many ways be quite ordinary members of their communities. The vivid cases described in this volume should make the reader question how to distinguish the ordinary and extraordinary and the extent to which those terms need to be redefined for an early modern context. They should also make more immediate a world in which magic was an everyday occurrence.

The Red Neighbour W. J. Eccott, 1908

Neighbours from Hell Mike Parker, 2014-04-30 From the Act of Union to Anne Robinson, *Neighbours from Hell* looks at English attitudes to the Welsh. Drawing on the author's experience of the comedy circuit, cartoons, the popular press, and postcards from the Tours of the Picturesque to the novels of Niall Griffiths, the range of reference is as broad as the writing style is witty. Stereotypes explored include the Welsh character: shifty, oversexed, or verbose; the Welsh language: dead, ugly, or secret code for extremists; and the landscape: Mike Parker examines treacherous policy decisions sacrificing communities to reservoirs, forestry, and military ranges. And he warns of future loss through blinkered tourist and property marketing. This is
