The Painter Angelos and Icon-Painting in Venetian Crete Maria Vassilaki, 2023-04-28 The sixteen studies in this book include six specially translated from Greek and another two published here for the first time They deal with the art of painting in Crete at a time when the island was under Venetian rule The main emphasis is on the 15th century and especially on the painter Angelos More than thirty icons with his signature survive and at least twenty more can be reliably attributed to him Angelos was the most significant artist of a particularly significant era It was at this time that the centre of artistic production migrated from Constantinople the capital of the Byzantine Empire to Candia the capital of Venetian occupied Crete These studies try to reconstruct the personality of this late Byzantine painter Angelos not only through his icons but also through his will 1436 now in the State Archives in Venice In this context they also explore the status of the Cretan painter in society The large number of extant Cretan icons clearly indicates the striking increase in production from the 15th century onwards Similarly archival documents are used to examine the trade of icons in Crete and the way Cretan artists had to organize their workshops in order to meet the requirements of the market

Inscribing Texts in Byzantium Marc Lauxtermann, Ida Toth, 2020-02-05 In spite of the striking abundance of extant primary material Byzantine epigraphy remains uncharted territory The volume of the Proceedings of the 49th SPBS Spring Symposium aims to promote the field of Byzantine epigraphy as a whole and topics and subjects covered include Byzantine attitudes towards the inscribed word the questions of continuity and transformation the context and function of epigraphic evidence the levels of formality and authority the material aspect of writing and the verbal visual and symbolic meaning of inscribed texts The collection is intended as a valuable scholarly resource presenting and examining a substantial quantity of diverse epigraphic material and outlining the chronological development of epigraphic habits and of individual epigraphic genres in Byzantium The contributors also discuss the methodological questions of collecting presenting and interpreting the most representative Byzantine inscriptional material and addressing epigraphic material to make it relevant to a wider scholarly community

The Akathistos Hymnos and Intermedial Compositional Processes in Later Byzantium Jon C. Cubas Díaz, 2025-03-28 This book explores intermedial compositional processes in later Byzantium building on the Akathistos Hymnos The relationship between the hymn's text music and illustrations has yet to be explored in detail The contributions here argue that these painted cycles should be studied as a result of interaction between hymnography psalmody and visual art not just as mere illustration of text Highlighting illuminated and notated manuscript copies of the hymn as evidence for varied liturgical and devotional practices they examine how icons and murals based on the Akathistos functioned as constituent elements of sacred space Focusing on intermediality this book helps bridge methodological gaps between scholarly approaches to medieval culture

Later Byzantine Painting Robert S. Nelson, 2024-10-28 Written over nearly

three decades the fifteen essays involve the three aspects of the title art agency and appreciation The first refers to the general subject matter of the book Byzantine art chiefly painting of the twelfth through the fourteenth centuries the second to its often human like agency and the last to its historical reception Responding to different issues and perspectives that have animated art history and Byzantine studies in recent decades the essays have wide theoretical range from art historical formalism iconography archaeology and its manuscript equivalent codicology to statistics patronage narratology and the histories of science and collecting The series begins with art works themselves and with the imagery and iconography of church decoration and manuscript illumination shifts to the ways that objects act in the world and affect their beholders and concludes with more general appreciations of Byzantine art in case studies from the thirteenth century to the present

The Oxford Handbook of Byzantine Art and Architecture Ellen C. Schwartz, 2021 A comprehensive overview of Byzantine art history Examines the development of religious architecture cultural dissemination adornment survival of historical subjects and styles in succeeding centuries Features more than 150 illustrations Book jacket

Visual Arts in the Worshipping Church DeBoer, 2016 Although numerous studies have examined biblical and theological rationales for using the visual arts in worship this book by Lisa J DeBoer fills in a piece of the picture missing so far the social dimensions of both our churches and the various art worlds represented in our congregations The first part of the book looks at Orthodoxy Catholicism and Protestantism in turn including case studies of specific congregations showing how each tradition's use of the visual arts reveals an underlying ecclesiology DeBoer then focuses on six themes that emerge when Orthodox Catholic and Protestant uses of the visual arts are examined together the arts as expressions of the church's local and universal character the meanings attributed to particular styles of art for the church the role of the arts in enculturating the gospel and more DeBoer's *Visual Arts in the Worshipping Church* will focus and deepen the thinking of pastors worship leaders artists students and laypeople regarding what the arts might do in the midst of their congregations

St Theodore the Studite's Defence of the Icons Torstein Theodor Tollefsen, 2018-05-04 St Theodore the Studite's Defence of the Icons provides an investigation of the icon theology of St Theodore the Studite mainly as it is presented in his three refutations of the iconoclasts the *Antirrhethici tres adversus iconomachos* Torstein Theodor Tollefsen explores Theodore's philosophy of images namely his doctrine of images and his arguments that justify the legitimacy of images in general and of Christ in particular Tollefsen offers a historical theological and philosophical exploration of Theodore's doctrine of images and his arguments justifying the legitimacy of images and of Christ In addition to the main elements of Theodore's defence of the icon like the Christological issue the relation between image and prototype the question of veneration his explanation of why we may say of an image that this is Christ and his innovative thinking on the representative character of the icon the book has an introduction that places Theodore in the history of Byzantine philosophy he has some knowledge of traditional logical topics and is able to utilize argumentative forms in countering his iconoclast opponents The volume also provides an appendix

which shows that the making of images is somehow natural given the character of Christianity as a religion Sacred Shock: Framing Visual Experience in Byzantium Glenn Peers, 2004 Sacred Shock attempts to lay bare the inner workings of Byzantine art by looking closely at the marginal or subsidiary areas in works of art **Painting the Soul** Robin Cormack, 2013-06-01 Painting the Soul is a beautifully illustrated study of the creation and development of the icon This book is a firework display It sets off scores of explosions which light up the sky over arching our field terrain that is normally traversed nose down and too mindful of the footsteps of our predecessors Burlington Magazine *The Materials and Craft of Early Iconographers* Mihaela D. Leonida, 2014-03-25 This book describes in detail the materials and techniques used by medieval iconographers It offers information about the natural sources the raw materials the tools and the technologies involved in preparing them The book allows entry into the secretive world of very knowledgeable and skilled artisans about which very little is known Topics covered include raw materials pigments binders solvents adhesives inks and varnishes Special chapters will be dedicated to the fresco technique as practiced by the early iconographers grinding painting on glass and the training apprenticeship of these craftsmen **Illuminated Prophet Books: A Study of Byzantine Manuscripts of the Major and Minor Prophets** John Lowden, 1988
