Journal of the American Judicature Society, 1917 Journal of the American Judicature Society American Judicature Society, 1917 *The Female Body in Medicine and Literature* Andrew Mangham, Greta Depledge, 2013-08-15 Drawing on a

range of texts from the seventeenth century to the present *The Female Body in Medicine and Literature* explores accounts of motherhood fertility and clinical procedures for what they have to tell us about the development of women's medicine The essays here offer nuanced historical analyses of subjects that have received little critical attention including the relationship between gynecology and psychology and the influence of popular art forms on so called women's science prior to the twenty first century Taken together these essays offer a wealth of insight into the medical treatment of women and will appeal to scholars in gender studies literature and the history of medicine *The Construction of Homosexuality* David F.

Greenberg, 2008-10-29 At various times homosexuality has been considered the noblest of loves a horrible sin a psychological condition or grounds for torture and execution David F Greenberg's careful encyclopedic and important new book argues that homosexuality is only deviant because society has constructed or defined it as deviant The book takes us over vast terrains of example and detail in the history of homosexuality Nicholas B Dirks New York Times Book Review *The*

Burke, 2009-05-26 How do we live out the message of Jesus in today's ever changing culture The church is facing its greatest challenge and its greatest opportunity in our postmodern post Christian world God is drawing thousands of spiritually curious imperfect people to become his church but how are we doing at welcoming them No Perfect People Allowed shows you how to deconstruct the five main barriers standing between emerging generations and your church by creating the right culture From inspiring stories of real people once far from God to practical ideas that can be applied by any local church this book offers a refreshing vision of the potential and power of the Body of Christ to transform lives today **Charlie**

Kaufman and Hollywood's Merry Band of Pranksters, Fabulists and Dreamers Derek Hill, 2008-09-01 Since the late 1990s a subtle subversive element has been at work within the staid confines of the Hollywood dream factory Young filmmakers like Spike Jonze Wes Anderson Michel Gondry David O Russell Richard Linklater and Sofia Coppola rode in on the coattails of the independent film movement that blossomed in the early 1990s and have managed to wage an aesthetic campaign against cowardice of the imagination much like their artistic forebears the so called Movie Brats Coppola Scorsese De Palma Altman and Ashby among others did in the 1970s But their true pedigree can be traced back to the cinematic provocateurs of the Nouvelle Vague such as Truffaut Goddard Chabrol Rohmer and Rivette who in the late 1950s and

throughout the 1960s liberated screens around the world with a series of films that challenged our assumptions of what the medium could offer and how stories could be told all of them snapping with style as much as they delivered on ideas Highly idiosyncratic yet intricately realized accessible yet willing to overthrow the constraints of formal storytelling surreal yet always grounded in human emotions this new film movement captures the angst of its characters and the times in which we live but with a wryness imagination earnestness irony and stylish wit that makes the slide into existential despair a little more amusing than it should be

Thinking with Tolstoy and Wittgenstein Henry W. Pickford,2015-11-30 In this highly original interdisciplinary study incorporating close readings of literary texts and philosophical argumentation Henry W Pickford develops a theory of meaning and expression in art intended to counter the meaning skepticism most commonly associated with the theories of Jacques Derrida Pickford arrives at his theory by drawing on the writings of Wittgenstein to develop and modify the insights of Tolstoy s philosophy of art Pickford shows how Tolstoy s encounter with Schopenhauer s thought on the one hand provided support for his ethical views but on the other hand presented a problem exemplified in the case of music for his aesthetic theory a problem that Tolstoy did not successfully resolve Wittgenstein s critical appreciation of Tolstoy s thinking however not only recovers its viability but also constructs a formidable position within contemporary debates concerning theories of emotion ethics and aesthetic expression

The Selected Prose of Fernando Pessoa Fernando Pessoa,2007-12-01 A selection of prose by Portugal s greatest writer of the twentieth century as addictive and endearing as Borges and Calvino The Washington Post Book World Building on the wonderful Fernando Pessoa critical essays in which one heteronym derides the work of another experiments with automatic writing and works that toy with the occult Also included is a generous selection from Pessoa s masterpiece The Book of Disquiet freshly translated by Richard Zenith from newly discovered materials Fernando Pessoa was one of the greatest exponents of modernism The Selected Prose of Fernando Pessoa is an important contribution to literature that brings back to life a forgotten but crucial part of the canon

REPRODUCTION FROM THE STANDPOINT OF BIOLOGY I GENERAL ACTIVITIES OF LIVING ORGANISMS The casual observer even if he watches thoughtfully the various activities of plants and animals would hardly believe these activities capable of classification into two general classes He notes the germination of the plant seed and its early growth step by step approaching a stage of maturity it blossoms produces seed and if it is an annual plant withers and dies If it is a perennial plant its leaves only wither and die at the approach of winter the plant passing into a resting stage from which it awakes the following spring to repeat again its annual cycle If he observes an animal he finds that it similarly develops to a stage of maturity reproduces its kind withers and dies but incident to these general activities he notes numerous others that seem to have no relation to the activity of the plant He sees men tilling the fields felling the forests building houses factories and railroads he sees them build hospitals colleges and churches Is it possible to group all of these activities of plants and animals into two general groups A more critical view of these activities makes it evident that they are all directed either to the maintenance and protection of the individual or the maintenance and protection of the race Those directed towards the maintenance of self are called egoistic activities while those directed to the maintenance of the race are called phyletic activities **Annual Report** Chicago. Municipal Court,Illinois.
