Ferguson, 2022-11-15 What Happens To Our Minds During Pandemics Natural Disasters Terrorist Attacks and Other Extreme Calamities Whether natural or man made local or global disasters impact our thinking and behavior on both a personal and societal level Even rather ordinary crises in our personal lives like the loss of a job or the end of a relationship trigger overwhelming feelings At the societal level group anxieties coupled with the moral pressure to conform can send us all down the path to ruin Why does this happen and through understanding human psychology how can we prevent this in the future In this highly original and engagingly written book Author Christopher J Ferguson examines how pandemics natural disasters terrorist attacks and other events of mass hysteria impact our psychology and prevent us from adequately responding to preventing or learning from those calamities From the rush to hoard toilet paper during the COVID 19 pandemic lockdowns to the disconnect between procedure and practice surrounding massive wildfires to debates about the science behind climate catastrophes and shifts after traumatic events like 9 11 and the murder of George Floyd The Psychology of Catastrophe uses in depth case studies to reveal how moments of societal upheaval affect the psychology of citizens Though we have often failed to predict respond to and learn from catastrophes we have nonetheless made remarkable progress Ferguson concludes by offering strategies to help us make better choices during crises in our own lives and providing solutions for how we as a society can better navigate misfortune in the future **Killing African Americans** Noel A. Cazenave, 2018-05-16 Killing African Americans examines the pervasive disproportionate and persistent police and vigilante killings of African Americans in the United States as a racial control mechanism that sustains the racial control system of systemic racism Noel A Cazenave's well researched and conceptualized historical sociological study is one of the first books to focus exclusively on those killings and to treat them as political violence Few issues have received as much conventional and social media attention in the United States over the past few years or have for decades now sparked so many protests and so often strained race relations to a near breaking point Because of both its timely and its enduring relevance Killing African Americans can reach a large audience composed not only of students and scholars but also of Movement for Black Lives activists politicians public policy analysts concerned police officers and other criminal justice
