Kleijn, 1962 It is not necessary to be a mycologist a student of mushrooms and fungi to be gripped by the beauty of this treasure chest of shapes and colors A great deal has been written about mushrooms and fungi but never before has it been possible to illustrate in color such a great variety Now thanks to new photography techniques these children of darkness are revealed for the first time in all the beauty of their natural surroundings MUSHROOMS AND OTHER FUNGI gives clear descriptions of the many kinds of fungi found all over the world and the language other than the proper botanical nomenclature is the language of everyone who is interested in the subject Included are tables of mushrooms and other fungi classified according to the places where they may be found edible and poisonous species a glossary an international bibliography and an index Where confusion might arise in recognition attention is drawn to it This is particularly necessary in regard to poisonous varieties Form and color attract attention in the identification of these plants and in addition a distinctive scent and taste accompany many of them Here is a book to introduce the reader to the strange and fascinating world of mushrooms and other fungi and to further his interest in the world of mycology Publisher *Border Poetics in German and Polish Literature* Karolina May-Chu, 2024 Examines how political borders are intertwined with less concrete borders such as those of ethnicity gender or class and how these entanglements are represented in contemporary novels that reimagine the German Polish borderlands as cosmopolitan spaces Globalization notwithstanding we live in an age of borders as the ongoing conflict at Europe's eastern edge reminds us Borders are meant to protect but they also divide and exclude This book however focuses on literature that pushes back against the divisiveness of borders advocating for transborder connections and criticizing exclusionary boundaries It examines novels that reimagine the German Polish borderlands as cosmopolitan spaces novels by Nobel Prize winners Olga Tokarczuk and Günter Grass as well as by authors less well known internationally the Polish Inga Iwasiów the German Tanja Dückers and the German Polish Sabrina Janesch The book utilizes and elaborates the concept of border poetics a narrative and cultural practice that places political borders in relation to less

concrete borders such as those of gender ethnicity or class as well as in relation to epistemological and ontological boundaries of language knowledge even reality Because border poetics rests on the same productive tension between the particular and the universal that drives contemporary notions of cosmopolitanism the book argues for the practice as an instance of what sociologist Gerard Delanty has termed cosmopolitan imagination The richly contextualized analysis is framed within transnational German Studies and draws on border studies cosmopolitanism European literature and world literature
