Folk Lore and Provincial Names of British Birds Charles Anthony Swainson, 1885 **Handbook of British Romanticism** Ralf Haekel, 2017-09-11 The Handbook of British Romanticism is a state of the art investigation of Romantic literature and theory a field that probably changed more quickly and more fundamentally than any other traditional era in literary studies Since the early 1980s Romantic studies has widened its scope significantly The canon has been expanded hitherto ignored genres have been investigated and new topics of research explored After these profound changes intensified by the general crisis of literary theory since the turn of the millennium traditional concepts such as subjectivity imagination and the creative genius have lost their status as paradigms defining Romanticism The handbook will feature discussions of key concepts such as history class gender science and the use of media as well as a thorough account of the most central literary genres around the turn of the 19th century The focus of the book however will lie on a discussion of key literary texts in the light of the most recent theoretical developments Thus the Handbook of British Romanticism will provide students with an introduction to Romantic literature in general and literary scholars with a discussion of innovative and groundbreaking theoretical developments *Recollections of a literary life ... Warren, 2025-06-05 Birds have long inspired our emotional and imaginative connections to physical environments but where did it all begin Hidden in the names of English towns and villages in copses fields lanes and hills are the ghostly traces of birds conjuring powerful identities for people in ancient landscapes What are their stories and secrets How did people encounter birds over a thousand years ago In *The Cuckoo's Lea* Michael J Warren sets out on the trail of these ghosts Captivated and guided by the secrets of place names he finds their stories entangled with his own explorations of places through birds all across England The past is hauntingly and movingly present on timeless marshes where curlews cry where goshawks are breeding again for the first time in centuries through silent cuckoo woods lost under concrete sprawl in the winter roosts of corvids and an owl village that vanished centuries ago Weaving together early literature history and ornithology this book takes readers on a journey far into the past to contemplate the nature of place and to discover a fascinating heritage that matters deeply to us now when so many places and their birds are threatened or already gone
