

The Analysis Of The Film "The Matrix"

The Matrix was a revolutionary movie that commented on technological reliance and used lighting, special effects and camera angles to add intrigue to the storyline. It tells of the dangers of technology and shows a worst-case story about what could happen if the technology created by humans became so powerful that it overtook the human race.

The movie The Matrix tells a very interesting story about what the world would look like if the technology created by humans became so advanced it overtook and began to control the humans. It is a very ironic twist that the humans become like slaves to the technology they created to serve them. It is also interesting how the protagonists in the story must use technology in the form of training modules in order to defeat the powerful technology that is ruling over the world. However, there is still the human element of being able to use their human brains to understand to world around them and outsmart the artificial intelligence. It is a cautionary tale, but still has a hopeful ending message that the human element will still be essential no matter what.

An example of when lighting is used to help tell the story is near the beginning of the movie. When Neo is first seen in his office building, the lighting is bland and slightly dim, but much brighter than it had been at any location before this scene. This shows the contrast between the two lives lived by Neo. When he is involved in his secret hacker lifestyle, everything is dark and there are shadows everywhere. This creates a very mysterious mood and illustrates the aspect of secrecy about how Neo lives his life. When he is seen in the office of his boss, it is the first well lit scene and is portrays the boring, bland everyday lifestyle that Neo is stuck in during the day. This contrast in

lighting shows the two lives Neo lives.

Hermeneutics of the Film World Alberto Baracco, 2017-10-09 This book identifies a new methodological strategy for the interpretation of film philosophizing Many recent works in film philosophy adopting the approach identified with the term film as philosophy have considered film as capable of doing philosophy Focused on the basic relationship between film and filmgoer the proposed method is founded on the concept of the film world Combining Merleau Ponty's and Ricœur's philosophies and reconsidering Goodman's theory of worldmaking the film world becomes the hermeneutic horizon from which film philosophical thought can emerge The book shows how Ricœurian methodology has the potential to provide a valuable resource for film studies by inviting scholars to consider film interpretation in terms of film world hermeneutics

Siegfried Kracauer's American Writings Siegfried Kracauer, 2012-06 We know Siegfried Kracauer as a brilliant Weimar essayist a Frankfurt School fellow traveler and a pioneering postwar film theorist This collection of his American writings uncovers fascinating corners of his film and cultural criticism firmly placing him in the context of the New York Intellectuals as well Peter Decherney author of Hollywood's Copyright Wars From Edison to the Internet **Essays on Revelation** Gerald L. Stevens, 2011-01-01 The book of Revelation perennially provokes outlandish futurist predictions proven patently false over time Such prophecy failures leave the inquiring mind with a strong sense that the book of Revelation is nothing but a hoax safely ignored and without contemporary relevance The inevitable practical result not only for church members but for their ministers as well is a canonical book stripped bare of canonical authority In this volume six contributors collectively attempt to provide a path toward recanonizing Revelation reclaiming its authority and relevance through christological foundations The result is a book not only useful in the collegiate and seminary classroom but also for serious small group Bible studies wanting to glean from Revelation something deeper than a fear of being left behind **The Impact of Tablet PCs and Pen-based Technology on Education** Dave A.
