Russian 'Hybrid Warfare' and the Annexation of Crimea Kent DeBenedictis, 2021-11-04 Western academics politicians and military leaders alike have labelled Russia's actions in Crimea and its follow on operations in Eastern Ukraine as a new form of Hybrid Warfare In this book Kent DeBenedictis argues that despite these claims the 2014 Crimean operation is more accurately to be seen as the Russian Federation's modern application of historic Soviet political warfare practices the overt and covert informational political and military tools used to influence the actions of foreign governments and foreign populations DeBenedictis links the use of Soviet practices such as the use of propaganda disinformation front organizations and forged political processes in the Crimea in 2014 to the Warsaw Pact invasion of Czechoslovakia in 1968 the Prague Spring and the earliest stages of the invasion of Afghanistan in 1979 Through an in depth case study analysis of these conflicts featuring original interviews government documents and Russian and Ukrainian sources this book demonstrates that the operation which inspired discussions about Russian Hybrid Warfare is in fact the modern adaptation of Soviet political warfare tools and not the invention of a new type of warfare

political culture among Wa elites and people UWSA external relations and capital flows with neighboring China showing how Wa autonomy is enacted through careful navigation of complex borderland geopolitics and the shadow economy He analyzes the seeming stalemate between the Myanmar state and the UWSA as one of tactical dissonance adopting simultaneous postures of authority and subordination and creating disruptions and connections Stalemate illuminates how seemingly ambiguous and disorderly practices of political signaling economic regulation and military governance produce relative stability challenging our assumptions about state like processes at the peripheries

Russian "Hybrid Warfare" Ofer Fridman, 2018-08-01 During the last decade Hybrid Warfare has become a novel yet controversial term in academic political and professional military lexicons intended to suggest some sort of mix between different military and non military means and methods of confrontation Enthusiastic discussion of the notion has been undermined by conceptual vagueness and political manipulation particularly since the onset of the Ukrainian Crisis in early 2014 as ideas about Hybrid Warfare engulf Russia and the West especially in the media Western defense and political specialists analyzing Russian responses to the crisis have been quick to confirm that Hybrid Warfare is the Kremlin's main strategy in the twenty first century But many respected Russian strategists and political observers contend that it is the West that has been waging Hybrid War Gibrinaya Voyna since the end of the Cold War In this highly topical book Ofer Fridman offers a clear delineation of the conceptual debates about Hybrid Warfare What leads Russian experts to say that the West is conducting a Gibrinaya Voyna against Russia and what do they mean by it Why do Western observers claim that the Kremlin engages in Hybrid Warfare And beyond terminology is this something genuinely new

allies In addition to diplomatic and security concerns they also look at the economic and financial dimensions of burden sharing and how all these elements are intertwined They also address the different dynamics of burden sharing between the US and Western Europe notably Germany and the United Kingdom UK on the one hand and between the US and East Asia particularly Japan and Korea on the other In particular they argue that while Western European countries provided most of the economic and political support for American policies until the 1960s the economic support from East Asian countries became much more important from the 1970s onwards This book is a valuable contribution to the literature on burden sharing and strategic alliance for scholars of international relations and the diplomatic history of the Cold War
