Comparing the Literatures David Damrosch, 2020-04-07 The discipline of comparative literature has long sought to develop effective theories and methods of broad based study but ideas based on national canons in a handful of Western European countries no longer seem adequate even for the study of national literatures themselves *Comparing the Literatures* integrates comparative postcolonial and world literary perspectives and seeks common ground Looking both at institutional forces and at key episodes in the life and work of comparatists who have struggled to define and to redefine the fundamental terms of literary analysis from language to literature to theory to comparison itself Damrosch offers a

comprehensive overview of the history and current prospects of comparative studies in a globalizing world **The Making of T.S. Eliot** Joseph Maddrey, 2009-05-13 This chronological survey of major influences on T S Eliot s worldview covers the poet s spiritual and intellectual evolution in stages by trying to see the world as Eliot did It examines his childhood influences as well as the literary influences that inspired him to write his earliest poetry his life as an American expatriate living in London from 1915 to 1930 including his ill fated marriage and his intellectual engagement with the literary traditions of his new country and the ways in which his intellectual pursuits fostered a spiritual rebirth that simultaneously reflected his past and revealed his future demonstrating how the early Romantic revolutionary became a staunch defender of tradition **The Western Landscape in Cormac McCarthy and Wallace Stegner** Megan Riley McGilchrist, 2012-06-25 The western American landscape has always had great significance in American thinking requiring an unlikely union between frontier mythology and the reality of a fragile western environment Additionally it has borne the burden of being a gendered space seen by some as the traditional virgin land of the explorers and pioneers subject to masculine desires and by others as a masculine space in which the feminine is neither desired nor appreciated Both Wallace Stegner and Cormac McCarthy focus on this landscape and environment its spiritual narrative symbolic imaginative and ideological force is central to their work In this study McGilchrist shows how their various treatments of these issues relate to the social climates pre and post Vietnam era in which they were written and how despite historical discontinuities both Stegner and McCarthy reveal a similar unease about the effects of the myth of the frontier on American thought and life The gendering of the landscape is revealed as indicative of the attempts to deny the failure of the myth and to force the often numinous western landscape into parameters which will never contain it Stegner s pre Vietnam sensibility allows the natural world to emerge tentatively triumphant from the ruins of frontier mythology whereas McCarthy s conclusions suggest a darker future for the West in particular and America in general However McGilchrist suggests that the conclusion of McCarthy s Border Trilogy upon which her arguments regarding McCarthy are largely based offers a gleam of hope in its final conclusion of acceptance of the feminine *The Ends of the Body* Jill Ross, Suzanne Conklin Akbari, 2013-01-01 Drawing on Arabic English French Irish Latin and Spanish sources the essays share a focus on the body s productive capacity whether expressed through the flesh s materiality or through its role in performing meaning The collection is divided into four clusters Foundations traces the use of physical remnants of the body in the form of relics or memorial monuments that replicate the form of the body as foundational in communal structures Performing the Body focuses on the ways in which the individual body functions as the medium through which the social body is maintained Bodily Rhetoric explores the poetic linkage of body and meaning and Material Bodies engages with the processes of corporeal being ranging from the energetic flow of humoral liquids to the decay of the flesh Together the essays provide new perspectives on the centrality of the medieval body and underscore the vitality of this rich field of study *Literature* Louis Markos, 2012-06-30 Enjoying poetry and novels can seem irrelevant and

out of touch in a world of texting tweeting and blogging But even in this technological age literature matters Seasoned professor Louis Markos invites us into the great literary conversation that has been taking place throughout the ages and illuminates the wisdom to be found therein He offers both a guide to studying and understanding literature especially poetry and an inspiring look at what it means to think like poets and view the world through literary eyes This book holds out a truth for all that the understanding and appreciation of literature draws us closer to God his Word and his work in the world

Scripture Study & Scholarship G. G. Bolich, G. C. Kenney, 2014-11-03 This volume provides a working introduction to the scholarly study of Jewish and Christian sacred texts Included are thorough explanations of 5 general methods and 8 chapters covering specialized methods as well as a final chapter that presents brand new mixed methods research in three studies that illustrate how sacred texts research looks in practice Readers are presented with step by step how to guides for each method and exercises to test their skills
