Musical Form in the Age of Beethoven Adolf Bernhard Marx, 1997-12-04 A B Marx was one of the most important German music theorists of his time Drawing on idealist aesthetics and the ideology of Bildung he developed a holistic pedagogical method as well as a theory of musical form that gives pride of place to Beethoven This volume offers a generous selection of the most salient of his writings the majority presented here in English for the first time It features Marx's oft-cited but little understood material on sonata form his progressive program for compositional pedagogy and his detailed critical analysis of Beethoven's Eroica Symphony These writings thus deal with issues that fall directly among the concerns of mainstream theory and analysis in the last two centuries the relation of form and content the analysis of instrumental music the role of pedagogy in music theory and the nature of musical understanding *The Art of Musical Phrasing in the Eighteenth Century* Stephanie Vial, 2008 This book is the collection of papers that came out of an interdisciplinary symposium held in the spring of 1991 in the Republic of San Marino The conference Effects of War on Society was planned as the first in a series aimed ultimately at placing in perspective the sociocultural variables that make outbreaks of war probable and delineating for researchers and policy makers alike some important steps that can be taken to control these variables This is Volume 1 of a series entitled Studies on the Nature of War which the University of Rochester Press has been publishing from Volume 2 War and Ethnicity Global Connections and Local Violence 1997 after much demand we are now distributing this book on behalf of the conference organizers The Center for Interdisciplinary Research on Social Stress in San Marino

The Masterwork in Music: Volume III, 1930 Heinrich Schenker, 2014-10-13 Volume III of this three volume set is dominated by one of the eminent theorist's most celebrated studies the analysis of Beethoven's Eroica Symphony All four movements are discussed in painstaking detail Making Light Raymond Knapp, 2018-02-07 Raymond Knapp traces the musical legacy of German Idealism as it led to the declining prestige of composers such as Haydn while influencing the development of American popular music in the nineteenth century showing how the existence of camp in Haydn and American music offer ways of reassessing Haydn's oeuvre **Stravinsky's Late Music** Joseph N. Straus, 2004-03-25 The first book to be devoted to the music of Stravinsky's last compositional period Cherubino's Leap Richard Kramer, 2016-11-21 For the Enlightenment mind from Moses Mendelssohn's focus on the moment of surprise at the heart of the work of art to Herder's imagining of the seismic moment at which language was discovered it is the flash of recognition that nails the essence of the work the blink of an eye in which one's world changes In Cherubino's Leap Richard Kramer un.masks such prismatic moments in iconic music from the Enlightenment from the chromatic moment the single tone that disturbs the thrust of a diatonic musical discourse and its deployment in seminal instrumental works by Emanuel Bach Haydn and Mozart on to the poetic moment taking the odes of Klopstock in their finely wrought prosody as a challenge to the problem of strophic song and finally to the grand stage of opera to the intense moment of recognition in Gluck's Iphigénie en Tauride and the exquisitely introverted phrase that complicates Cherubino's daring moment of escape in Mozart's Figaro

Finally the tears of the disconsolate Konstanze in Mozart's *Die Entführung aus dem Serail* provoke a reflection on the tragic aspect of Mozart's operatic women. Throughout other players from literature and the arts, Diderot, Goethe, Lessing among them, enrich the landscape of this bold journey through the Enlightenment imagination. **Structure and Meaning in**

Schenker's Argument and the Claims of Music Theory Leslie David Blasius, 1996-10-03. Heinrich Schenker's theoretical and analytical works claim to resubstantiate the unique artistic presence of the canonic work and thus reject those musical disciplines such as psychoacoustics and systematic musicology which derive from the natural sciences. In this respect, his writing reflects the counter-positivism endemic to the German academic discourse of the first decades of the twentieth century. The rhetoric of this stance, however, conceals a sophisticated programme wherein Schenker situates his project in relation to these sciences, arguing his reading of the musical text as a synthesis of a descriptive psychology and an explanatory historiography which itself embeds both paleographic and philological assumptions. This book rereads Schenker's project as an attempt to reconstruct music theory as a discipline against the background of the empirical musical sciences of the later nineteenth century. **Aesthetics and the Art of Musical Composition in the German Enlightenment** Johann Georg Sulzer, 1995. Can an abstract theory of *Empfindsamkeit* aesthetics have any value to a musician wishing to study composition in the classical style? The eighteenth-century German theorist and pedagogue Heinrich Koch showed how this question could be answered with a resounding yes. Starting with the systematic aesthetic theory of the Swiss encyclopedist Johann Sulzer, Koch was creatively able to adapt Sulzer's conservative ideas on ethical mimesis and rhetoric to concrete

problems of music analysis and composition In this collaborative study Thomas Christensen and Nancy Baker have translated and analysed selected writings of Sulzer and Koch respectively bringing to life a little known confluence of philosophical and musical thought from the German Enlightenment Koch's appropriation of Sulzer's ideas to the service of music represents an important development in the evolution of Western musical thought Schumann's Dichterliebe and Early Romantic Poetics Beate Julia Perrey, 2002 This book offers a theory of Romantic song by re-evaluating Schumann's Dichterliebe of 1840 one of the most enigmatic works of the repertoire It investigates the poetics of Early Romanticism in order to understand the mysterious magnetism and singular imaginative energy that imbues Schumann's musical language The Romantics rejected the ideal of a coherent and organic whole and cherished the suggestive openness of the Romantic fragment the disconcerting tone of Romantic irony and the endlessness of Romantic reflection thereby realizing an aesthetic of fragmentation Close readings of many songs from Dichterliebe show the singer's intense involvement with the piano's voice suggesting a split Self and the presence of the Other Seeing Schumann as the second poet of the poem here of Heine's famous Lyrisches Intermezzo this book considers essential issues of musico-poetic intertextuality introducing into musicology a hermeneutic that seeks to synthesize philosophical literary critical music analytical and psycho-analytical modes of thought *Metaphors of Depth in German Musical Thought* Holly Watkins, 2011-09-01 What does it mean to say that music is deeply moving Or that music's aesthetic value derives from its deep structure This study traces the widely employed trope of musical depth to its origins in German language music criticism and analysis From the Romantic aesthetics of E T A Hoffmann to the modernist theories of Arnold Schoenberg metaphors of depth attest to the cross-pollination of music with discourses ranging from theology geology and poetics to psychology philosophy and economics The book demonstrates that the persistence of depth metaphors in musicology and music theory today is an outgrowth of their essential role in articulating and transmitting Germanic cultural values While musical depth metaphors have historically served to communicate German nationalist sentiments Watkins shows that an appreciation for the broad connotations of those metaphors opens up exciting new avenues for interpretation
