Building an Apostolic People (Formerly Holy Community) John Kingsley Alley, 2010-04-29 The powerful teaching developed in this book began with a revelation the Lord gave concerning The Spirit of Understanding a Biblical anointing that enables a church to become a people of one heart and mind This is the grace that was poured out on the day of Pentecost when with the coming of the Holy Spirit the disciples were changed from individuals with selfish ambition and petty jealousies to a Christian community of deep love and agreement The 12 disciples were different people after the day of Pentecost than before Something changed them The resurrection gave them faith in Christ and Pentecost gave them something between themselves that caused them to love each other That something is Holy Community and this book talks

all about it This great anointing in Pentecost is what is required for the Church today to again be such a people of one heart and mind a holy community **Meaningful Tourism** Pankaj Kumar Tyagi,Vipin Nadda,Ajit Kumar Singh,2025-03-10

[The New Autocracy](#) Daniel Treisman, 2018-02-06 Corruption fake news and the informational autocracy sustaining Putin in power After fading into the background for many years following the collapse of the Soviet Union Russia suddenly has emerged as a new threat at least in the minds of many Westerners But Western assumptions about Russia and in particular about political decision making in Russia tend to be out of date or just plain wrong Under the leadership of

Vladimir Putin since 2000 Russia is neither a somewhat reduced version of the Soviet Union nor a classic police state Corruption is prevalent at all levels of government and business but Russia's leaders pursue broader and more complex goals than one would expect in a typical kleptocracy such as those in many developing countries Nor does Russia fit the standard political science model of a competitive authoritarian regime its parliament political parties and other political bodies are neither fakes to fool the West nor forums for bargaining among the elites The result of a two year collaboration between top Russian experts and Western political scholars Autocracy explores the complex roles of Russia's presidency security services parliament media and other actors The authors argue that Putin has created an informational autocracy which relies more on media manipulation than on the comprehensive repression of traditional dictatorships The fake news hackers and trolls that featured in Russia's foreign policy during the 2016 U S presidential election are also favored tools of Putin's domestic regime along with internet restrictions state television and copious in house surveys While these tactics have been successful in the short run the regime that depends on them already shows signs of age over centralization a narrowing of information flows and a reliance on informal fixers to bypass the bureaucracy The regime's challenge will be to continue to block social modernization without undermining the leadership's own capabilities
